### Penalties Of 7 On Conservation Staff Weighed

LANSING (AP)—State Conservation Director G. E. Eddy planned a second meeting today with seven Upper Peninsula employees charged with misconduct in office.

Eddy had asked if all seven must be dismissed as recommended by Circuit Judge Donald E. Holbrook, who sat as a one-man grand jury to investigate charges against conservation employees.

He planned a second meeting with the seven after Atty. Gen. Frank G. Millard said there was precedent for suspensions rather than firings if the circumstances warranted.

Eddy said he probably would not announce his decision on the penalties against the seven until Friday or later.

All seven have been under temporary suspension pending an investigation of the charges, including varying degrees of misuse of state funds and property and improper outside timber dealings.

## Loss In Pontiac Blaze \$750,000

PONTIAC (AP)—Fire destroyed the Jack Habel Chevrolet Co. offices, showroom, service garage and more than 130 cars and trucks today. Damage was estimated at nearly \$750,000.

A spark from an acetylene torch ignited spilled gasoline on the garage floor. Flames spread to a truck under repair. It exploded.

Three firemen suffered minor burns. Eight employees fled to safety. The fire was brought under control. It at first threatened the downtown business section.

At least 30 or 50 new cars were demolished. Eight mail trucks and a score of commercial vehicles in the one-story building were destroyed.

Firemen, although handicapped by a wind-driven snowstorm, prevented flames from spreading to 1,200 gallons of gasoline stored beneath the garage floor.

## Bridge Authority Revived For Soo

LANSING (AP)—A bill re-creating the International Bridge Authority has passed the Senate and gone to the House.

The Authority, a 19-year-old agency, seeks the construction of a bridge or tunnel between Sault Ste. Marie, Mich., and Sault Ste. Marie, Ont.

Sen. William A. Ellsworth (R-St. Ignace) said the new law was sought to capitalize on legislation creating the Mackinac Straits Bridge Authority. Provisions in the latter law are regarded favorably by bonding houses, he said.

The measure also eliminates the \$18 million ceiling which the Authority could spend on a bridge under the present 1935 law. Ellsworth said the ceiling was regarded as too low now.

### House Committee Proposes Slash To 10 Per Cent Level

By CHARLES F. BARRETT  
WASHINGTON (AP)—The House Ways and Means Committee today overrode a late-hour Eisenhower administration plea and voted for a wide range of excise tax cuts.

But the committee did not complete action, before a recess, on all the provisions in a bill by Chairman Daniel A. Reed (R-N.Y.) which altogether would cut excises about one billion dollars a year.

The committee approved about 14 of the 20 proposed cuts before it recessed.

Secretary of the Treasury Humphrey said in a statement Tuesday night the government could not afford now such broad, sweeping excise tax reductions as proposed by Reed. President Eisenhower told his news conference today he is backing Humphrey in his tax stand.

The Reed bill would slash almost all excises now above 10 per cent down to that level.

**Two Actions Balance**  
While cutting some excises, the bill would cancel indefinitely reductions set under present law for April 1 on liquor, tobacco, gasoline, automobiles, beer and wine.

The two actions would almost balance out if the House and Senate go along. The new cuts would reduce revenues almost one billion dollars a year. Killing the scheduled reductions would retain present revenues of about \$1,100,000,000.

The Eisenhower administration had requested that the scheduled reductions be canceled, and original.

## Idle Workers Pay Boosted To \$39 By New Bill In Lansing

LANSING (AP)—The Senate Labor Committee today reported out a revised Teahen unemployment compensation bill which it said will pay idle workers with families more than 50 per cent of their take-home pay.

The bill would boost compensation benefits \$4 a week for a worker with one or more children, reaching a new \$39 a week maximum compared to the present \$35.

**Duplicated In House**  
At the same time, House Republicans started a duplicate of the Teahen bill through the lower chamber.

Speaker Wade Van Valkenburg (R-Kalamazoo) said the Republican House caucus knew the Senate was preparing to take action "but we decided that if something goes haywire over there, we ought to have a bill of our own to work on."

## Robbery Is Flop At Henry, Tenn.

PARIS, Tenn. (AP)—A year's planning went astray as police swiftly caught a gunman who robbed a bank at nearby Henry, kidnapped a farm wife and terrorized another family in a getaway attempt Tuesday.

Held in Henry County jail here today in default of \$5,000 bond was a man identified as George Segars, about 30, of Anderson, S. C. He was charged with kidnapping, bank robbery and carrying a pistol.

All except \$193 of the \$4,130 taken from the Henry branch of the Commercial Bank & Trust Co. of Paris was recovered.

Segars said he had planned the robbery for a year and was "very much disappointed" at the take. He told officers he had expected to find between \$35,000 and \$40,000.

Segars was caught by state patrolmen after his getaway car was ditched and a stolen truck became overheated.

## Chrysler And Hudson Call Back 9800 Men

DETROIT (AP)—Chrysler Corp. and the Hudson Motor Car Co. have recalled 9,800 production employees.

Chrysler today recalled 4,300 employees in its body division and an additional 1,000 in the Plymouth division. Hudson recalled 4,500 employees laid off six days ago.

Both companies had blamed the layoffs on slack seasonal demand.

VICTIM RECOVERING — Rep. Alvin M. Bentley of Owosso, Mich., badly wounded when fanatics fired volleys of shots into the House of Representatives Monday, is reported recovering in a Washington, D. ## Giant U. S. Jet Airliner Unveiled

SEATTLE (AP)—A jet-propelled challenge to British and American planemakers — a 550-mile-an-hour aerial giant—has been taken from under its veil of secrecy by the Boeing Airplane Co.

The 95-ton swept-wing, four-jet airplane was shown Tuesday as it neared completion in the plant of the company which also builds B47 and B52 jet bombers.

Only De Havilland of England has a commercial jet in the air. The English Comet will be no match for Boeing's giant.

The company said the 707 will fly from 4,000 to 5,000 miles, carrying from 80 to 150 passengers while cruising along at an altitude of 35,000 feet "and up."

The fuselage is 128 feet long and the wingspread 130 feet.

## Senate Labor Committee, in a night session, voted to eliminate one of the disqualification provisions which organized labor had assailed, but kept others.

The committee agreed to retain the provision which disqualified a worker for benefits only if he refuses to accept another "suitable" job.

**Clause Eliminated**  
The Teahen bill originally would bar a worker who refused "available" work. Labor had charged this would be used to force skilled workers to take jobs as "soda jerks."

Sen. James M. Teahen (R-Owosso) said the "available" work clause did not mean what labor thought it did, but that "to avoid misunderstanding we cut it out."

The committee retained provisions of the original bill which would deny unemployment compensation to workers who also are drawing workmen's compensation, company pensions, severance pay and those on payless vacations. Labor opposes these.

The revised bill's new maximum of \$39 compares with \$44 or more sought by Gov. Williams and organized labor, but is \$2 more than Teahen originally proposed.

The committee retained the provision most sought by management, the merit rating system. This is a new method of figuring employer contributions to the \$440 million compensation fund.

It cuts an employer's contributions from a minimum of one per cent of his payroll to one-tenth of one per cent if he has a good employment record since 1936.

## Gable Leaves MGM

HOLLYWOOD (AP)—After 23 years with MGM studio, Clark Gable is leaving to become a free lance.

The studio's \$300,000-a-year star announced Tuesday that he is exercising his right to end his long-term contract.

The measure would create a Fair Employment Practices Commission which could investigate discrimination in job hiring because of race, creed, color or national origin and issue "cease and desist" orders.

Its fate in the Legislature is doubtful, some leaders agreed. If it survives a Senate vote it must run the gauntlet of the hostile House committee again.

The Senate voted Tuesday to make chemical tests for drunkenness admissible in court trials, to pay probate judges pensions of \$4,000 a year maximum and to require local hospitals to meet state standards.

## Fate Doubtful

The House voted to increase workmen's compensation coverage to employers of two or more, instead of four or more employees.

# Eisenhower Takes Stand Against McCarthy Tactics

## Rules Improved In Government Personnel Work

By HARRY P. SNYDER  
WASHINGTON (AP)—A House government operations subcommittee reported today that the State Department has improved its personnel procedures as a result of an investigation started almost a year ago after the suicide of a diplomatic official.

The international relations subcommittee, headed by Rep. Brownson (R-Ind.), said it found evidence of slipshod personnel practice inherited by the Eisenhower administration.

## Started With Backlog

It added that R. W. Scott McLeod was faced with a heavy backlog of personnel investigations and an inadequate force of investigators when he became the department's security and personnel officer.

The report made no mention of Secretary of State Dulles' order Monday stripping McLeod of his hiring and firing powers. McLeod remains as department security officer at no cut in his \$15,000-a-year salary.

The committee's investigation was touched off by the suicide in January 1953 of John C. Montgomery, who was in charge of the department's Finnish desk.

The report said nothing was found to reflect on Montgomery's "integrity, reputation or abilities."

**Slipshod Handling**  
But it criticized the department's handling of his case. The committee said it discovered that: An investigation of Montgomery after he joined the department in 1946 was "inadequate and incomplete."

He had not disclosed his rejection for military service in 1942 because of fast heartbeat and psychoneurosis.

The personnel division classed him as an "international economist," didn't know he was on the Finnish desk, and didn't have a copy of a "satisfactory" efficiency report made on him in 1952.

As a result the committee came up with recommendations designed, it said, to prevent "a recurrence of such instances of inefficient and improper personnel management."

The committee said it also found that the number of security officers hadn't kept pace with the investigative work load for years.

The London Daily Mirror correspondent, reporting from New Orleans on the Mardi Gras, described a mint julep today as "a gin and sherry plus sugar and rind of lemon—all iced."

## Senate Set To Vote On Michigan FEPC

LANSING (AP)—For the first time in history a fair employment practice FEPC bill is out on the Senate floor awaiting a vote.

Ignoring refusals by a House committee to release similar legislation for action, the Senate State Affairs Committee reported out the Diggs-Brown-Blyden-FEPC bill which is widely backed by Negro groups.

The bill is the same as the Crampton bill killed in the House committee. It is modeled after the New York state law, minus New York's penalty provisions for violators.

The measure would create a Fair Employment Practices Commission which could investigate discrimination in job hiring because of race, creed, color or national origin and issue "cease and desist" orders.

Its fate in the Legislature is doubtful, some leaders agreed. If it survives a Senate vote it must run the gauntlet of the hostile House committee again.

## Puerto Ricans Send Threats To Chicago Welfare Director

CHICAGO (AP)—A Chicago housewife reported today she has received telephoned death threats from anonymous Puerto Ricans intended for Chicago's welfare commissioner.

Mrs. Alvin D. Rose said the threats were made by persons who mistakenly believed they were talking to the wife of Alvin E. Rose, Chicago's welfare commissioner.

The welfare commissioner, who has an unlisted telephone, proposed recently that indigent natives of the island be sent back rather than being admitted to Chicago's relief rolls.

Mrs. Rose said the first threat was received four weeks ago by a caller who asked to speak to "the welfare man who has been sending my countrymen back."

When she explained the families

were not related, she said, the caller remarked, "You're lucky. We are going to kill him."

She said she received another call the following day, apparently from the same man. He insisted her husband was the welfare commissioner, and then said: "If your husband doesn't leave my countrymen alone, we're going to get you — all of you."

Mrs. Rose resides with her husband and son on Chicago's North Side.

She said other calls, but no threats, have been received every other day or so by Puerto Ricans who are attempting to reach the commissioner by telephone.

The commissioner said he was offered a police guard after the Washington shooting, but has refused it as unnecessary.

## Snowfall Again Ties Up Traffic

By THE ASSOCIATED PRESS  
A heavy snowfall — the second within 36 hours—blanketed southern Michigan today, snarling traffic, closing schools, and handicapping firemen fighting a \$750,000 fire in Pontiac.

The Weather Bureau said the snow storm, which started shortly after midnight Tuesday, was expected to add 3 to 10 inches of new snow on heavy drifts from Monday's storm.

The area of the new storm was placed 60 miles on either side of a line from St. Joseph to Saginaw. Strong northerly winds were expected to cause heavy drifting in the snowbelt.

Detroit DPW crews failed to clear the first part of the storm from main traffic arteries in time to avoid morning rush hour snarls. Buses were reported running 30 minutes behind schedule. Some suburban lines halted service because of high drifts.

## Lenten Period Begins

NEW YORK (AP)—Lent began today — Ash Wednesday.

The 40-day period, which lasts until the Saturday before Easter, stresses the ideas of penance and self-denial for Christians throughout the world.

Many churches will hold special Lenten services each week throughout the season.

## Wounded Michigan Solon Has Good Chance To Recover

WASHINGTON (AP)—Rep. Bentley (R-Mich.), one of five congressmen wounded in the House chamber Monday, was removed today from the critical list at Casualty Hospital.

Dr. Joseph R. Young, chief of staff at the hospital, told reporters that while Bentley still is not out of danger, he thinks "it is safe" to remove him from the critical list.

"However," Dr. Young said, "we must still consider him as seriously ill."

Bentley was wounded in the chest, stomach and liver when four fanatic Puerto Ricans sprayed pistol bullets from the gallery into the House chamber.

By WILLIAM F. ARBOGAST  
WASHINGTON (AP)—Officials moved today toward swift indictment of four Puerto Rican fanatics who shot and wounded five congressmen in a wild affray Monday. At the same time Capitol Hill pondered new security proposals.

Congressional leaders were generally agreed, although unofficially, that no airtight precautions can be devised.

The five house members felled by the fusillade from the visitors' gallery apparently were recovering, although one of them, Rep. Alvin M. Bentley (R-Mich.), remained in critical condition. A bullet pierced his lung, stomach and liver.

**Grand Jury Called**  
Dr. George Crile, a specialist who flew here from Cleveland to examine the 35-year-old congressman, gave him a better than even chance to recover.

The others wounded, Representatives Clifford Davis (D-Tenn.), Ben. F. Jensen (R-Iowa), George Fallon (D-Md.) and Kenneth Roberts (D-Ala.), were less seriously hurt and are recovering satisfactorily.

U.S. Dist. Atty. Leo Rover arranged to present the cases of the four Puerto Ricans to a federal grand jury today.

Oddly, Rover, then a practicing attorney here, was assigned by the

## Isle Royale Gets \$200,000 Budget

WASHINGTON (AP)—Rep. John B. Bennett (R-Mich.) said Tuesday he has been reliably informed that the House Interior Appropriations Subcommittee has approved \$200,000 for Isle Royale National Park for the year beginning July 1. The park is on an island in the middle of Lake Superior.

Bennett said the amount is \$90,000 more than the budget recommendation of \$110,000.

"This means," he said, "that \$78,000 of the additional appropriation will be available for new construction on the island."

Bennett and members of the Isle Royale Development Commission appeared before the subcommittee Feb. 15 to urge additional funds for the park.

## Armed Forces Need 4,500 Physicians And 1,875 Dentists

WASHINGTON (AP)—The armed forces will need about 4,500 physicians, 1,875 dentists and 225 veterinarians from civilian life in the year following July 1, a Defense Department spokesman said today.

At the same time, a Selective Service official said when doctors are classified as available for military service, they're told they may apply for a commission and thereby be eligible for an extra \$100 a month in pay. If they fail to volunteer, they're drafted as privates, and are not eligible to perform normal physician's duties. Since 1950, only 31 physicians, 23 dentists and 2 veterinarians have been inducted.

The first group of physicians scheduled to feel the pressure of the draft, the defense official said, will be about 2,500 men who will be completing their internship after July 1.

## President Calls For Fair Play By Committees

By JACK BELL  
WASHINGTON (AP)—President Eisenhower hit out today at "disregard of the standards of fair play" in congressional investigations, and declared that no one in the armed forces is required to submit "to any kind of personal humiliation" before investigating committees.

Eisenhower said in a statement read to a news conference that "in opposing communism, we are defeating ourselves if either by design or through carelessness we use methods that do not conform to the American sense of justice and fair play."

## Gen. Zwicker Praised

The President did not mention Sen. McCarthy (R-Wis.) by name, but there could be no doubt he was aiming at him, for the President coupled his remarks about congressional investigations with praise for Brig. Gen. Ralph Zwicker.

It was McCarthy's treatment of Zwicker, commandant at Camp Kilmer, N. J., which touched off the heated row of the last two weeks between McCarthy and Secretary of the Army Robert T. Stevens.

The President said the Department of the Army had made "serious errors" in promoting and giving an honorable discharge to Maj. Irving Peress, New York dentist who refused to say whether he was a Communist when before McCarthy.

## Code Outlined

McCarthy later called Zwicker for questioning about Peress and, in a heated session behind closed doors, told the general at one point that he was not fit to wear his uniform.

This brought from Stevens a denunciation of "abuse" of Army officers.

In his 800-word statement, Eisenhower outlined a three-point code he said ought to be followed in combating internal communism:

"1. We must be unceasingly vigilant in every phase of governmental activity to make certain that there is no subversive penetration.

"2. In opposing communism, we are defeating ourselves if either by design or through carelessness we use methods that do not conform to the American sense of justice and fair play.

"3. The conscience of America will clearly discern when we are exercising proper vigilance without being unfair. That conscience is reflected in the body of the United States Congress. We can be certain that its members will respond to Americans' convictions and beliefs in this regard."

## Incidents Useless

Eisenhower said there are vital foreign and domestic problems confronting the nation which "de-

## Engravers Get \$3.75 Raise OK

NEW YORK (AP)—A fact-finding board has recommended that AFL photo-engravers get the same wage offer they rejected in striking six major New York newspapers last December—a \$3.75 weekly "package."

The federal study group split 2-1 on the decision, with AFL President George Meany dissenting.

The ruling is not binding, and possibly could lead to a resumption of the unprecedented strike which shut down all major Manhattan newspapers except the Herald Tribune for 11 days. The Trib suspended publication during part of the strike.

Union comment was not immediately available after the decision was announced Tuesday night. It was reported, however, that the union would meet Sunday to study the board's finding.

The ruling was of significance even beyond the union immediately involved. The formula of \$3.75 plus fact-finding had been accepted by several other unions and had been expected in many quarters to establish a pattern in the newspaper industry.

The union originally demanded a \$15 weekly increase but later reduced the amount to \$7.50. An employer offer to submit the issues to arbitration was rejected.

## Council To Hear Traffic Report

Escanaba City Council will at its regular meeting at 8 p. m. Thursday in City Hall hear a traffic survey report in connection with a study made to determine whether it would be advisable to erect a traffic light there.

Reports will be made on the basis of studies by the city engineer's department, together with a recommendation of the safety director.

Other Council business scheduled for the meeting includes the following:

Recommendation of fire truck bids received at a previous meeting and held over for action until an analysis was prepared.

Appointments to the Recreation Board, also held over from a previous meeting until recommendations had been received concerning nominees for appointment; and a report on the operation of the city steam plant.

New business will include an explanation by City Engineer Loren Jenkins of new "yield-of-way" signs; and consideration of a resolution for an easement for a water main across the former William Bonifas residence property on Lake Shore Drive.

## Slippery Highway Blamed For Motor Mishap At Perkins

Slippery pavement is blamed for a motor accident in which a car driven by Don Nickels, of Perkins turned completely over and was damaged to an extent of about \$200.

Nickels, who was on his way home from St. Francis hospital, where his wife had shortly before given birth to a baby, was driving north on Highway M35 about 9:30 last night and had reached the edge of Perkins village when the car swerved on the icy road, hit the ditch and rolled onto its top.

Nickels was badly shaken, but unhurt. The accident was investigated by the sheriff's department.

## K-C Planning Business-Social

During last night's business meeting of the Knights of Columbus, council 640, Grand Knight Chet Rice announced that a business-social meeting will be held at Gladstone in place of the regular Tuesday night meeting, March 16.

This meeting is one of the first steps in creating a good neighbor policy by conducting such meetings in the outlying areas of the Escanaba Council.

The business meeting will begin at 8 p. m. Sunday, March 21, at the All Saints School hall with the social immediately following. Luncheon will be served as Sunday is not designated a compulsory day of fast.

Any further information, which may be needed, can be obtained by contacting J. J. Gnat of Gladstone or Grand Knight Chet Rice, Escanaba. Members wishing transportation should be at the K. of C. club rooms, Escanaba, at 7:30 p. m. March 21.

## Ground Observer Official Here

Capt. R. E. Sherbundy, detachment commander of the Green Bay Filter Center, U. S. Air Force, met today with several officers of the Gladstone and Escanaba Ground Observer Corps.

He met with William Girard, supervisor of the Gladstone post; Don Wertz, supervisor of the proposed Escanaba post, and A2/c John McLellan.

Plans are being made to construct the Escanaba post atop the Delta Hotel and will be maintained on a 24 hour schedule. Capt. Sherbundy hopes for 600 posts in the Green Bay area from Milwaukee to North Central Wisconsin and all of the Upper Peninsula.

He hopes to have them all operating as fast as possible, and no post more than eight miles apart. He will also visit at North Bay, Ontario, Canada, to establish a similar setup.

audiences, are pictured above. The play was very well received. (Daily Press Photo)

## Five Bids Received Here For Purchase Of Press

Proposals from five bidders for the purchase of the Escanaba Daily Press were opened at the meeting of the Escanaba Board of Education last night. The bids were referred to Andrew Skaug, certified public accountant for analysis. The board will meet Thursday at 5 to receive the report and to act upon the bids.

The proposals and their bidders follow:

**John F. Frederick**, Muskegon attorney and industrialist submitted three proposals:

One totalling \$455,000 with a down payment of \$165,000, eight payments of \$27,500 and a final payment in 1963 of \$70,000. The bid made no provisions for interest.

A second bid totalling \$475,000, with a down payment of \$175,000, nine payments of \$25,000 and a final payment in 1964 of \$75,000. The bid made no provisions for interest.

A third bid totalling \$525,000, with a down payment of \$125,000, 14 annual payments of \$25,000 and a final payment in 1969 of \$50,000. The bid made no provision for interest.

**Press Employees' Bid**  
Max Lavine, Superior, Wis., who bid \$376,000 cash plus the value of inventory (about \$4,000) in the first bidding on Sept. 15, 1953, renewed his bid, except that this

time he included the accounts receivables in his bid price.

**Escanaba Daily Press, Inc.**, a corporation of employees of the newspaper, bid \$425,000 for all assets, except cash on hand, and offered to assume all liabilities except prepaid subscriptions. The offer included a down payment of \$155,000, interest at 4 per cent on the unpaid balance, and annual payments of \$27,500 per year for 10 years, plus an additional payment of \$68,498.01 at the end of the tenth year. The offer with interest would produce \$499,481.01.

**Frank J. Russell and Associates**, of Marquette, offered \$400,000 cash, plus an additional amount up to \$25,000 provided the employees of the company agreed to subscribe the additional amount in participating preferred stock. The offer was conditioned upon the bidders' making satisfactory arrangements with the employees.

**Not Binding Proposal**  
"Under no circumstances will this bid be binding until arrangements satisfactory to us shall be made with the employees of the Press," Russell wrote.

"We do intend that all employees shall be associated with us as willing minority stockholders or cooperative non-stockholders, or we shall expect to have their resignations in hand before making any deal. We are perfectly willing that employees should have an advantageous position as holders of participating preferred stock, but we shall not permit them to acquire much voting stock."

The offer included a provision that the buyer would assume no liabilities without full reimbursement but would be willing to act as a collection agent for a fee for the accounts receivables.

The associates of Mr. Russell were not identified in his bid but in a previous proposal submitted last September associates of Mr. Russell were John Rice, publisher of the Houghton Mining Gazette, and George Osborn, publisher of the Sault Ste. Marie, Mich., Evening News.

**Delayed Action Bid**  
Claude E. Sadler and Tom A. Sadler, Royal Oak advertising counselors, proposed a total of \$325,000 for all assets and liabilities.

There were eight bidders when the newspaper was offered for sale last September. Others were J. Albert Dear of Jersey City, N. J., a local group of businessmen, comprising Charles Stoll, Percy Rosemurgy, Juel Lee, Hubert Shepeck, J. J. Welch and S. R. Venne; and Leonard V. Finder, vice president of the Universal Match Corp., St. Louis.

Mr. Dear informed the board that he did not desire to bid against the employees in this bidding.

The second bidding was necessitated because of the assignment of the newspaper to the Board of Education by James E. Frost, executor of the Norton estate.

ties under the following terms:

\$4,166.66 per month for 10 months, with a payment of \$475,000 additional on March 1, 1955.

In this proposal, the Sadlers reported that any buyer other than employees would be faced with "the real possibility of a strike or walkout of a mass group which would cause suspension of publication."

Other comments in the Sadler letter follow:

"The situation in Escanaba has, because of circumstances since 1950, produced consequences we consider grave. Community reaction to troubles outlined above might very well strike the purchaser, the board and School District."

"At the same time, there is reason to believe that if the Escanaba Daily Press remains in the hands of the employees, its service to the community as operated in its tranquil, steady manner would cause no trouble to anyone and might in time assume an aggressive newspaper place in the community. That is for you to decide when you consider provisions of the will of Mr. Norton, your obligation to the community and your own conscience."

Mr. Dear informed the board that he did not desire to bid against the employees in this bidding.

The second bidding was necessitated because of the assignment of the newspaper to the Board of Education by James E. Frost, executor of the Norton estate.

There were eight bidders when the newspaper was offered for sale last September. Others were J. Albert Dear of Jersey City, N. J., a local group of businessmen, comprising Charles Stoll, Percy Rosemurgy, Juel Lee, Hubert Shepeck, J. J. Welch and S. R. Venne; and Leonard V. Finder, vice president of the Universal Match Corp., St. Louis.

ties under the following terms:

\$4,166.66 per month for 10 months, with a payment of \$475,000 additional on March 1, 1955.

In this proposal, the Sadlers reported that any buyer other than employees would be faced with "the real possibility of a strike or walkout of a mass group which would cause suspension of publication."

Other comments in the Sadler letter follow:

"The situation in Escanaba has, because of circumstances since 1950, produced consequences we consider grave. Community reaction to troubles outlined above might very well strike the purchaser, the board and School District."

"At the same time, there is reason to believe that if the Escanaba Daily Press remains in the hands of the employees, its service to the community as operated in its tranquil, steady manner would cause no trouble to anyone and might in time assume an aggressive newspaper place in the community. That is for you to decide when you consider provisions of the will of Mr. Norton, your obligation to the community and your own conscience."

## Iron Mountain May Be Declared A Distress Area

IRON MOUNTAIN—The Iron Mountain city council Monday night unanimously approved a letter of recommendation to the State Senate and House of Representatives asking that this county again be considered a distress area. The action was taken after the reading of a letter from Local 952, UAW-CIO, stating that Dickinson county's unemployed now total 750 persons, and the total for the Upper Peninsula is 7,500.

The union asked that the council not only ask that Dickinson county be classified as a distress area, but that the resolution include full support of President Eisenhower's recent request on unemployment compensation, namely an extension of benefits from 20 to 26 weeks and a cash compensation of at least half of the weekly wages previously earned.

A copy of the resolution will also be sent to the Dickinson county delegation in the State Senate and House of Representatives.

## New School Is Named John A. Lemmer School

The Escanaba Board of Education last night adopted a resolution naming the new elementary school to be constructed this year the "John A. Lemmer Elementary School" in honor of the superintendent of the Escanaba Public Schools.

The resolution follows:

"Since it has become the pleasant duty of the Escanaba Board of Education to choose a name for the new elementary school in the southwest part of the city, it is the wish of the Board that it be known that very careful consideration has been given by the Board for the selection of a suitable and appropriate name for this school.

"Selfless Leadership"

"It is the further desire of this Board to let it be known that, since this elementary school is intended for the education and training of handicapped as well as normal boys and girls, it should bear the name of a highly esteemed and respected lifelong member of this community. This man has endeared himself to thousands of people in this community and elsewhere by his vigorous and selfless leadership which has brought Escanaba to be recognized as a center for the education, training and rehabilitation of handicapped young people, and the Escanaba school system generally to be recognized as one of the finest school systems in the state of Michigan. Indeed, it may be said that this man by his selfless devotion to the cause of education

JOHN A. LEMMER

and the welfare of others was in a large measure responsible for the building of this new and modern school.

"Therefore, be it resolved that the new elementary school located at Seventh Avenue and Twentieth Street South henceforth be known as the John A. Lemmer Elementary School.

Open Bids April 6

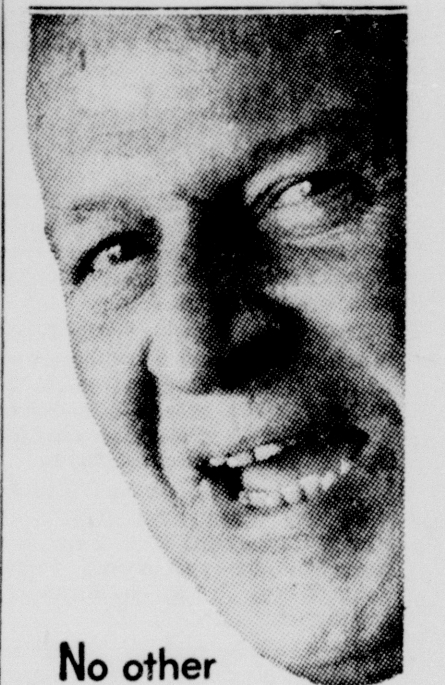

"Be it further resolved, that it is the wish of this Board of Educa-

tion that a suitable plaque be placed in a conspicuous place in or on this school setting forth this name, John A. Lemmer Elementary School, and commemorating the generosity of the late Mrs. Catherine Bonifas in providing for the facilities in this school for handicapped children."

Last night the Board of Education met with Howard Kerns of Perkins and Will and set April 6 as the date for opening bids for the construction of the new school.

The base bids will include 11 classrooms, a multi-purpose room, kindergarten and offices. An alternate proposal will bid on two additional classrooms and a kindergarten.

The building includes classrooms for kindergarten through sixth grade classes and rooms for special education.

# Frigid Weather Will Continue

Escanaba, along with the Upper Peninsula in general, is experiencing a cold wave with this morning's temperatures very close to zero.

Escanaba, Marquette and Sault Ste. Marie recorded 6 above and in spite of clear skies there has been little rise in temperature. It will be even closer to zero tomorrow morning, S. E. Decker of the Escanaba weather bureau predicts.

Green Bay and Milwaukee, affected by the rough weather, that is hitting Chicago, were 12 and 17 this morning.

Yesterday's high in Escanaba was 25, but the cold air moved in early in the afternoon and the near zero temperatures hit shortly after nightfall.

Severe snowstorms have hit southern Michigan and northern Illinois with Chicago getting the brunt of the weather. Waves 10 feet high have been lashing the Chicago shoreline and ten inches of snow has fallen.

This morning's readings were 20 degrees lower than those of yesterday in Iowa and northern Missouri.

Among representative low readings were Lander, Wyo. -13; Casper and Cheyenne, Wyo. -11; Bismarck, N. D. -2. Duluth zero, Gage, Okla. and Omaha 10 above zero. Freezing temperatures were reported as far south as south-central Texas. Yesterday's highs ranged from 3 above zero at Moorcroft, Wyo. to 82 at Yuma, Ariz., and Thermal, Calif.

## Welfare Costs In County Reported

Welfare expenditures in Delta County for the month of December 1953 have increased with cases financed by state and county funds and decreased with cases financed by state and federal funds compared to the amount spent in December 1952. A. M. Gilbert, director, announced.

Cases financed by state and federal funds, including old age assistance, aid to dependent children aid to blind and aid to disabled, reached a total of \$56,377.50 in comparison with the \$58,100 spent the previous year, December 1952.

There was a total of 970 cases, stated above. These included old age assistance, 771 cases, totaling \$37,939.50; aid to dependent children, 182 cases, totaling \$17,429; aid to blind, seven cases, totaling \$423, and aid to the disabled, 10, totaling \$586.

During December 1953, county hospitalization totaled \$4,311.62 and administrative totaled \$2,556.37. Both of these items are financed wholly by county funds. Direct relief, subdivided into medical supplement, 149 cases and direct relief, 147 cases, totaled \$11,700, making a total of these cases \$74,945.49. Medical supplement includes old age assistance, aid to dependent children, aid to the blind and aid to the disabled that are given medical care only for acute illness.

A total of 1,025 state and federal fund welfare cases were handled in December of 1952 costing a total of \$58,100. The cost of county hospitalization and administration was less during that month in 1952, and there were less direct relief cases making a total of \$74,945.49 compared to \$72,585.50.

## King Infant Dies At Hospital Here

## Home Ec. Groups Map Lesson Plans For Coming Year

Representatives of Home Demonstration groups in Delta county met Tuesday afternoon at the First Lutheran church in Gladstone and mapped initial plans for next year's lessons.

All five phases of homemaking were considered—clothing, home management, foods, home furnishings and family life. Several suggestions in each field were considered.

All group members will have an opportunity to vote for the lessons most helpful to themselves. Votes will be tallied and those receiving the highest number will be taught next year beginning in September.

Lessons under consideration are color harmony in clothing, basic dress finishes, buying and preparing meat, using fruits and meats, disciplining children, family fun, insurance, repairing electrical equipment, better lighting for the home and pictures for the home.

Final decision on a craft lesson will be made later.

## Obituary

**HAROLD ST. OURS**  
Funeral services for Harold St. Ours, former Escanaba resident, will be held Thursday at 9 a. m. at St. Patrick's Church with Msgr. Martin B. Melican officiating. Burial will be made in Holy Cross Cemetery.

Friends may call at the Degnan Funeral Home.

Mr. St. Ours is survived by six brothers and sisters, Larry and Janet, Escanaba Rte. 1; Morris, Donald, Mrs. Betty Moore and Mrs. Elaine Anderson, Escanaba; and Mrs. Mark Perron, Milwaukee.

The rosary will be recited at the Degnan Funeral Home at eight this evening.

## No Referendum On Meters Here

The retailers of Escanaba have decided not to petition the City Council for a referendum on the parking meter question, Hugh Grow secretary, said today.

After a study of the City Charter there seems to be no clear way to petition the parking meter question unless it be an advisory vote, Grow reported.

Their desire to have the matter on the April ballot as an advisory vote was declined by the City Council. The City Council took this action because of the lack of requests by the citizens of Escanaba to have the matter placed on the April ballot, Grow said.

## Offer Of Storm Warning Tower At Menominee Rejected

**MENOMINEE** — Because it felt it would serve no useful purpose, the Menominee Harbor Commission last night recommended to City Council rejection of an offer of the U. S. Department of Commerce, Weather Bureau Division, of the storm warning tower, atop the Carpenter Cook Company garage on 1st Street. The building is the former No. 1 Fire Engine House.

The Federal agency has discontinued the storm warning service and at first tried to sell the tower. It then offered the tower to the City free, although cost of dismantling it would have to be borne by the City.

Council referred the offer to the Harbor Commission to consider its use as a Menominee marine installation. In a letter to Council, Chairman William H. Caley said the Commission felt the tower could serve no useful purpose and suggested that the offer be rejected. Council authorized Clerk B. W. Delgoffe to so advise the Commerce Department.

## Duluth TV Station To Serve U. P. Area

**DULUTH**—KDAL-TV of Duluth, operating on Channel 3 (VHF), will begin screening on March 7, according to an announcement from the licensee, the Red River Broadcasting Co., Inc., in the Bradley building, Duluth.

The interim power will be 5,000 watts on a temporary antenna with 100,000 watts scheduled from a high tower in late summer.

When the high tower is in operation the station will service areas in Minnesota, Northern Wisconsin and the greater portion of the Upper Peninsula.

KDAL-TV will broadcast community interest programs which will include daily local, regional, national, and international news with pictorial coverage.

## Editorials—

## Outlawing Communist Party Will Not Affect Civil Rights

UNDER the Smith Act, some 60 top Communist leaders have been convicted of conspiring to teach and advocate the overthrow of the United States government. But there are some who think the law is insufficient. They believe the Communist Party should be outlawed in America.

In order to convict three-score Communist chieftains, the Justice Department had to build, in effect, 60 individual cases specifically proving conspiracy. Yet, oddly enough, to do that required demonstrating in every instance that the Communist Party itself is a conspiratorial organization and nothing else.

Even though this has now been proved

## Stormy Weather

ONE of the great American sports is lambasting the weather man on grounds of unreliability. But it's always been an amateur sport. Nobody really wants to tar and feather the poor chap who pores over maps and charts trying to figure out what wind and cloud will do next.

In Kansas City, however, a number of business firms which suffered in the 1951 flood got serious about it. They wanted to sue the weather bureau for damages resulting from what they felt was insufficient warning of disaster.

But a federal judge said the bureau could not be sued. He stood up for the harassed guy with the maps and charts. Tongue-lashing the fellow is still an amateur sport, though it may be practiced pretty vigorously on occasion.

## Words, Wit & Wisdom

By William Morris

All set for the Wednesday Word game? Well, keep a sharp eye on the words we have chosen to test your vocabulary power. A few of them are especially tricky—and all of them will make worthwhile additions to your vocabulary, in case you don't already know them. Remember that one of the simplest most direct ways to build your vocabulary is to look up in the dictionary any words you miss in these weekly quizzes. Then use them three times in speaking or writing—and they will become permanent additions to your working vocabulary.

- 1.—Decagon: (A) Defense Department headquarters; (B) ten-sided polygon; (C) track and field sports event.

## The Doctor Says ... Enlarged Prostate Gland May Harm Kidneys and Liver

By EDWIN P. JORDAN, M. D. — Written for NEA Service

Two men have recently inquired about what is probably the same disorder, though their questions are different. One asks what may be the cause and treatment of a condition in which the patient has to get up several times at night to urinate. He adds the significant statement that he is over 70 years old. The other says: "What treatments other than operation can be suggested for prostate enlargement?"

In comment on the first question, a good guess is that the trouble with frequent urination is the result of prostate enlargement since this is a typical symptom, and the age of the inquirer certainly suggests that he may have some difficulty like this. The prostate is a sex gland lying at the outlet of the bladder. When it enlarges too much, as it often does in older men, it presses on a portion of the lower urinary apparatus and can cause difficulty. Indeed, the most frequent symptom of such enlargement is the necessity for frequent urination; its effect in disturbing sleep can be most annoying. Another common early symptom of prostate enlargement is delay or difficulty in beginning urination. Such symptoms as these start gradually but tend to get worse.

As time goes on, the bladder is never completely emptied and its wall or lining becomes thickened. The desire to urinate comes more and more frequently. The amount of pain, irritation, and local

discomfort caused by enlargement of the prostate varies from person to person. There is also some danger of the development of kidney trouble because of the back pressure from the urine held in the bladder.

Sometimes, and often without apparent warning, a man with an enlarged prostate may suddenly find that he is not able to urinate at all. Under such circumstances the bladder must be drained through a tube, called a catheter, which is passed into the bladder (or by some other method). The symptoms of acute inability to urinate can be relieved in this way, but only temporarily.

COMPLICATIONS SERIOUS. The complications of an enlargement of the prostate gland can be serious. Those who have symptoms should not neglect them until the kidneys or bladder have been seriously harmed.

Perhaps some time a method will be discovered of preventing prostate enlargement or of treating it with hormones or drugs. Although studies along these lines have been made, at present surgery is usually the preferred method of treatment. Several different and good methods of operating on the prostate gland, aimed at removing some of the excess tissue and relieving the symptoms are available. These are done frequently and successfully and should not be dreaded.

Since the first of the Smith Act convictions, much of the surface trappings have disappeared, too. Outlawing the party would not make a great deal of difference.

It is also contended that to ban the party would be to interfere with free speech. But Sen. Margaret Chase Smith, Maine Republican, would spell out in her outlawry bill that there was no intent to suppress discussion of Communist ideas as such.

Obviously we could not and do not intend to shut off discussion of anything under the sun. To try would be to introduce thought control.

We want to hear about communism, what it purports to offer, what its system of thinking is. If we believe in the deep values of freedom, we cannot fear that our democratic approach will suffer in competition. On the other hand, if we do not study rival systems, how can we know how best to combat them and preserve our own?

But, as we have said, outlawing the Communist Party, labeling it for the conspiracy it is, marking it as the agent of a foreign power, need not affect these fundamental civil privileges.

**Ike's The Boss**  
SOME veterans of the Washington scene said last year that because President Eisenhower seldom chose to bring White House weight to bear on legislative problems, he would find this year he could not do it.

In the light of recent events, that must be judged an interesting but empty theory. Senators of both parties agree that Mr. Eisenhower's opposition was the prime factor in blocking Senate adoption of the controversial Bricker amendment on treaty-making powers.

As a result of this experience, the experts are now revising upwards their estimates of the percentage of his program that the President will get through Congress this year.

## Questions and Answers

**Q—What are the qualifications for serving in Congress?**

A—The Constitution states that a Representative must be at least 25 years old, a citizen for at least seven years and at the time of election, a resident of the state he represents. A Senator must be at least 30 years old, a citizen for at least nine years, and a resident of his state at the time of election. A former Senator, Rush D. Holt (D-W. Va.), now a Republican, was only 29 when elected in 1934 for a term beginning Jan. 3, 1935. He did not take his seat until June 21, 1935, two days after his 30th birthday.

Senator Lyndon Johnson of Texas has developed one of the smoothest machines in recent Democratic history. Colleagues agree that while it isn't always right it certainly is smooth.

It was this machine that brought defeat to the Republicans when Democrats overrode Senator Knowland's plan to hold night sessions on the Bricker amendment. Every Democrat was in his seat at the right moment and voting, except for two—Symington of Missouri, who was in Europe, and McCarran of Nevada who was sick.

We are smartest at fifty, says a professor. That's not giving the women much of a chance.

What would come in mighty handy would be an alarm clock for the office that would ring when it's time to rise to the occasion.

## Merry-Go-Round

By DREW PEARSON

WASHINGTON—A former officer of the Italian army was sitting with a group of senators when the question of Secretary Stevens' capitulation to Senator McCarthy came up. McCarthy had been quoted as saying: "If you want a commission in the army I can fix it up for you."

"I doubt if you Americans realize what politics can do to an army," the Italian said. "I was a young captain in the Italian army when the fascists took it over, and I know what politics did."

"It creeps in very subtly before anyone realizes it. An inferior officer who's a lieutenant is promoted to be a captain, simply because he's a friend of the Fascist regime. Or again, I remember I once ordered a lieutenant to take over a work detail and he refused. He said he was busy making out reports on the army for the Fascist party."

"Some people have criticized the Italian army for caving in during the war," continued the former officer. "Politics was the reason. An army doesn't fight when it's run on political lines."

Senator Fulbright of Arkansas, who was listening, remarked: "I just received a telegram from a friend calling attention to the fact that the Egyptian army had kicked out its premier, the Syrian army had kicked out its president, and McCarthy had driven a political wedge in the American army all in the same day."

"It may seem farfetched to you," concluded the Italian ex-captain, "but once a political leader begins to dominate an army the line between free government and a totalitarian government becomes very thin indeed."

### ARMY POLITICS

Judging from current resentment against McCarthy in the Army there should be no early danger of his taking over. However, officers recalled last week how Maj. Gen. Cornelius Ryan, commander of the 19th Infantry at Fort Dix had phoned Secretary of the Army Stevens to complain that McCarthy's office had been bombarding him to get special privileges for McCarthy's ex-aide, Gerard David Schine.

"General," replied Secretary Stevens, "this is one you've got to handle yourself."

Officers also recalled last week that when Col. Frances Kreidel, commander of the Provost Marshal School at Camp Gordon, Ga., had protested against Schine's transfer to his school without sufficient qualifications, Kreidel was suddenly transferred to Tokyo.

Under Army regulation 615-215-1, no one is admitted to the Provost Marshal School without two years service, without attaining the rank of corporal or higher, and without being in a class 1 or class 2 physical condition. Schine is in class 3, has been in the Army only four months, and is a private.

Despite this, Senator McCarthy arranged for his ex-staff member to ride roughshod over Army regulations and transfer from Fort Dix basic training to the Provost Marshal School. Regular Army channels objected. But the transfer was ordered by Secretary of the Army Stevens himself.

And when the commander of the Provost Marshal School objected, he was transferred.

No wonder McCarthy boasted to friends: "If you want a commission in the Army I can fix it up for you."

### MERRY-GO-ROUND

Remarked Senator Carl Hayden of Arizona apropos of the way the four Republican senators got Secretary Stevens to surrender: "They've been watching these Communists so closely that they've learned how to brain-wash." . . . Col. Robert R. McCormick of the Chicago Tribune amazed Washington by publishing a front-page editorial at the height of the Stevens-McCarthy controversy telling McCarthy to lay off the Army. McCormick and McCarthy are old friends and the Chicago Tribune is one of Joe's stanchest backers, but first and last "The Colonel" is an Army man. . . . it was because Senator Langer voted with the Democrats to adjourn the senate rather than hold a night session that majority leader Knowland proposed that the committee chairman no longer be picked by seniority. He was aiming of course at Langer. . . . Knowland seemed to resent Langer's vote against a night session more than Langer's investigation of Chief Justice Earl Warren. . . . his colleagues say that Senator Dirksen of Illinois who did the chief job of sweet-talking Secretary Stevens into surrender, is such a good salesman he could talk a hornets nest out of a tree.

## Doctor's Wife Tries To Keep Cable Cars Alive In Frisco

By JACK W. LAUCK

NEA Staff Correspondent

SAN FRANCISCO — (NEA) — It started back in 1946 with the simple statement, "Really, something should be done to help save the cable cars."

The remark was made by Mrs. Hans Klussman at a Federated Arts groups meeting, and suddenly Mrs. Klussman, who was neither a club woman nor a civic leader, found herself leading a movement with followers who had the zeal of crusaders.

They demanded a fair deal for San Francisco's famed cable car system, which was slated for abandonment — and they got it. After gathering nearly 39,000 signatures on petitions, the cable car issue was put on the ballot and San Franciscans voted overwhelmingly to keep the system.

Said one old-time campaign manager: "A campaign like they put on would have cost the politician \$50,000." It cost the Citizens Committee to Save the Cable Cars a fraction of that.

For Mrs. Klussman, the campaign has never stopped in the last eight years. Her husband, a doctor, says every time he sees his wife she's on the telephone.

The Klussman home is headquarters for the Citizens Committee to Save the Cable Cars. The only paid member is a secretary. The rest are all volunteers who come and go, but they won't let Mrs. Klussman drop the crusade she unwittingly started. Some believe that if she ever did, the cable cars would automatically be doomed.

As a result, the Klussmans were forced to build a hideaway across the Golden Gate Bridge in Marin County. With an unlisted telephone and address, it's the only place they can relax without being disturbed.

CRUSADER Mrs. Hans Klussman alights from one of the cable cars for which she's fighting.

CRUSADER Mrs. Hans Klussman alights from one of the cable cars for which she's fighting.

The current battle started when the Public Utilities Commission secretly decided to chop off one of the cable lines. Mrs. Klussman was flooded with hundreds of letters from volunteers offering to help. Many of them contained cash contributions. In the past Mrs. Klussman's committee has received contributions from all over the nation.

The commission has already lopped off one shuttle service. "They actually put four people

ROLLER-COASTER HILLS and cable cars are a San Francisco trademark. Here you're looking down from Knob Hill as a cable car labors toward the top. In background is the San Francisco-Oakland Bay bridge. On right is the Mark Hopkins hotel.

out of work," challenged Mrs. Klussman, "saving only about \$15,000 a year. And they are forcing 400,000 people—who rode the shuttle last year—to walk."

"Actually, if they could cut one salary of the commission," she commented bitterly, "they could save just that much, and give service back to those 400,000."

Attorney Morris Lowenthal, volunteering to head a petition committee, said "We'll need about 55,000 signatures to get an amendment on the June ballot."

San Franciscans have voted twice to keep the cable cars. The proposed amendment to the city

charter would make cable car curtailments impossible except by a majority vote at an election. The petition must be filed with the city by April 24.

"Getting such a petition circulated," explained Lowenthal, "would cost about \$10,000."

On the first day, Mrs. Klussman and her volunteers obtained 12,000 signatures.

"Our cable cars intrigue visitors to San Francisco because they are genuine and an integral part of our transit system and city life," she points out.

With Mrs. Klussman as their champion, it seems likely the cable cars will stay that way.

### Small Business

"During the last three months of last year the Small Business Administration approved 25 loans, of which only one—for \$27,621—had been disbursed to the borrower at the close of business Jan. 7. During that same period, SBA paid out \$725,809 in salaries alone. This might be helping the small businessman; it might be efficiency in government—but I doubt it."—Rep. Lee Metcalf (D-Mont) in a Feb. 9 newsletter.

### Refugee Roadblock

"The special Refugee Act of 1953, enacted on Aug. 7 last year, authorizes the admission into this country of 225,000 refugees and escapees from Communist persecution. Since the measure became law exactly three refugees have been admitted . . . constantly recurring charges are being made that W. Scott McLeod, Assistant Secretary of State for security, is dragging his heels to prevent the provisions of the law from being implemented."—Rep. Harlan Hagen (D-Calif) in a Feb. 11 newsletter.

### Penny Ante

"The House Committee on Post Office and Civil Service has reported a bill which would make it cost 4 cents instead of 3 to send a letter. I know why—they figure if they make letters expensive enough, not so many constituents will be able to afford to write protesting the high price of coffee."—Rep. Don Magnuson (D-Wash.) in a Feb. 11 newsletter.

NO LINCOLN HERE — "The other evening when I heard the President in his radio and television speech quote Lincoln's statement about doing for all the people what needs to be done for them, I chuckled; I said to the little group sitting in my living room 'How can he reconcile that statement with the legislative program he has proposed to Congress (which) for the most part does not protect the economic welfare of the people of the country, but plays into the hands of big business, which obviously has dominated his campaign and the first year of his Administration.'"—Sen. Wayne Morse (I-Ore) in a Feb. 11 Senate speech.

NAME OF ROMANCE—Michigan's Upper Peninsula, a land that in the past has sometimes been regarded as an asset, more often as a liability, may at last come into its own.

This will be accomplished by a number of developments, including the construction of a Straits of Mackinac bridge which is the latest.

And one of the major results of the bridge construction will be to spur the tourist business volume. Travelers in increasing numbers will go zooming along Upper Peninsula highways.

Tourist facilities will by necessity have to be expanded to meet the demand for accommodations.

But now comes the question of promotion—and what to call that principal east-west route across the U. P. now bearing the prosaic and unimaginative designation of US-2.

MACKINAW TRAIL—Michigan as a whole has decided to call itself (for purposes of tourist promotion) the Water Wonderland.

Certainly this name is pleasant in connotation and suggests Michigan's appeal to the tourist and vacationer.

Why not, therefore, carry the idea of pleasant and attractive names into additional projects? For example, there is every reason to support a program in which trunkline highways are given names typical of the region they traverse.

Mackinaw Trail is a logical selection for the present US-2 as it traverses the Upper Peninsula from Sault Ste. Marie to St. Ignace, thence westerly to Manistique, Gladstone, Escanaba and Iron Mountain.

Tourists coming north across the Straits of Mackinac bridge will take the Mackinaw Trail to the Sault, or the Mackinaw Trail to Manistique, Gladstone, Escanaba.

AROUND THE LAKE—Much of the tourist traffic reaching the Straits of Mackinac and heading north into the Upper Peninsula goes south again through Wisconsin.

Many tourists with a week or a weekend of vacation time ahead of them make the "around Lake Michigan tour." They either enter the Upper Peninsula from Wisconsin or at the Straits.

There would be considerable value to the tourist industry as a whole to promote the Mackinaw Trail route around Lake Michigan. This would benefit eastern Wisconsin, western Lower Michigan, and southern Upper Peninsula.

The lure of the Upper Peninsula will have new emphasis following construction of the Straits of Mackinac bridge. Promotion of a Mackinaw Trail that crosses the proposed span—longest in the world—would be beneficial to the tourist business.

THE DOLLAR VOLUME—Without belaboring the point, it will be apparent that if the tourist traffic increases the dollar volume the tourist brings to the Upper Peninsula will also go up.

These tourist dollars—then as now—will through the natural channels of commerce and distribution find their way into the pockets of all our people. The beneficial effect may be indirect, but it is there nonetheless.

More travelers buying meals, gasoline, gifts, paying for rooms, recreation and entertainment, will leave their vacation money in a variety of pockets. Those who receive the dollars will in turn spend them, thus spreading the wealth in the region.

MORE THAN ADVERTISING—Upper Peninsula communities must look to more than an appropriation for advertising to share in the tourist dollar benefit.

Promotion to lure the tourist here must be supplemented in every community by programs designed to make the traveler feel that he is getting his money's worth—and instill in him the desire to return again.

The answer to this problem is not in advertising. Rather it must come about as a program of action. Summer festivals and fetes, concerts, boating and swimming events, summer theater, fishing contests—all these and others suggest the possibilities.

None of the affairs need be costly or grandiose. But there should be "something going on" so when the tourist asks what there is to see and to do in your town the answer need not be: "Nothing—this is a dead place."

# U.S. Spends Billions In Search For More Scientific Knowledge

By Congressional Quarterly  
WASHINGTON —(C Q)—The United States, a businesslike nation noted for its "know how," is spending billions every year to improve its "know what."

An estimated \$30 billion has gone into applied and basic research since 1941.

Working side by side, government, industry and nonprofit institutions invested about \$4 billion in 1953, and the government alone will provide more than half that amount in each of the next two fiscal years.

In a nation of "doers," why this preoccupation with knowledge? Military research took a giant's portion of the \$30 billion spent since the outbreak of World War II. But President Eisenhower has called research "our surest promise of expanding economic opportunities," indicating that the Administration places a premium on scientific development as prosperity insurance.

**Shift In Financing**  
Overall, the major share of the research burden has shifted from industry to the federal government in the years since 1941. The comparison:

National total, 1941 \$900 million; 1953, \$4 billion; Industry, \$510 million, 1953, \$1.4 billion; Federal, \$370 million, 1953, \$2.5 billion; Non-profit institutions, \$20 million, 1953, \$100 million.

More than half the federal funds spent for research are used to purchase the research services of industry, while less than a third are spent at federal facilities. The rest is distributed to non-profit institutions such as colleges and universities, hospitals, and independent research groups.

The accent in federal research spending has been on the military. The Defense Department and the

Atomic Energy Commission together handle more than three-fourths of all federal research funds. These Bureau of the Budget figures show federal research spending on a fiscal year basis since 1950:

	Military	Total
1951	\$1.1 billion	\$1.3 billion
1952	1.6 billion	1.8 billion
1953	1.9 billion	2.1 billion
1954 (est.)	1.9 billion	2.1 billion
1955 (est.)	1.8 billion	2.0 billion

Applied research and development, the practical application and use of scientific knowledge, accounts for more than 90 per cent of current federal research spending. The rest goes for basic research, to increase scientific knowledge.

These were the comparative amounts programmed for applied and basic research in fiscal 1952 and 1953:

Applied, 1952, \$1.8 billion, 1953, \$2 billion; Basic \$120.9 million, 1953, \$126.2 million.

**Basic Research Boosted**

Although the emphasis has been on practical applications of science, basic research seems slated for a bigger role. President Eisenhower asked Congress for a \$6 million increase in fiscal 1955 appropriations for the National Science Foundation, and said half the boost was "needed to expand basic research."

The National Science Foundation, which promotes and supports basic research and scientific education, was created by Congress in 1950 after a five-year drive and one Presidential veto in 1947.

In 1953, Congress removed the \$15 million limit it had placed on annual appropriations when it created the Foundation.

The federal government also sponsors research work by non-profit institutions. In fiscal 1952,

\$338 million was distributed to 427 institutions in the 48 states, District of Columbia, Alaska, Hawaii, Puerto Rico, and 18 foreign nations.

Twenty per cent of the \$338 million was for basic research, and 87 per cent of the total went to educational institutions.

**Michigan Research Dollar**

The federal government in fiscal 1952 distributed \$337,261,000 to 403 nonprofit institutions in the 48 states, the District of Columbia, Alaska, Hawaii, and Puerto Rico for research and development. In fiscal 1951, federal research funds totaled \$293,818,000 for 360 institutions.

On the basis of federal funds received for research by non-profit institutions in fiscal 1952 Michigan ranked 8th. The Central region as a whole placed third.

The nine non-profit institutions in the state received a total of \$6,110,000 in fiscal 1952. The 74 institutions throughout the region received \$80,563,000.

In fiscal 1951 nine institutions in Michigan received \$6,495,000 for research and development. The Central region, with 68 institutions, received \$75,581,000.

## Deferment Tests For College Men Set For April 22

WASHINGTON (AP)—Selective service has reminded college students planning to take the April 22 selective service college qualifications test that they must have their applications postmarked before midnight Monday, March 8.

Director Lewis B. Hershey said the deadline is necessary to allow time for educational testing service, Princeton, N. J., which conducts the test, to process the applications and assign each applicant to a testing center.

The April 22 test will be given at about 1,000 centers. Application blanks and information may be obtained from the nearest Draft Board.

To be eligible for the test, a registrant must be satisfactorily pursuing a full-time college course and must not have taken it previously.

Students with either a score of 70 or better on the test, or maintaining stipulated class standing, may be considered for deferment as a student by their local boards.

# Threat To Kill President Denied

NEW HAVEN, Conn. (AP)—A 24-year-old Puerto Rican was indicted here Tuesday on a charge of threatening to kill President Eisenhower.

Pedro Orozco Sanchez, alias Pedro S. Orozco, of Hartford, was scheduled for arraignment in U.S. District Court today.

Armed guards stood watch in the courtroom as a federal grand jury weighed the charge against Sanchez. If convicted, he could be sentenced to a \$1,000 fine or five years in prison or both.

The alleged threats to "kill the President" came, police said, when Sanchez became riled while being fingerprinted Monday in police headquarters where he was being booked on a charge of non-support of his wife.

The threats were made just about the time five congressmen were wounded in the spectacular shooting in the House of Representatives in Washington, Police Capt. Joseph P. McDonald said.

Sanchez denied making "the threats."

"I never carry gun or pistol," he said. "I no kill anyone."

He was held under \$15,000 bail.

# Mink Association Joins National Board

Joseph R. Whitney, president of the Upper Michigan Mink Breeders Association, appointed A. A. Theuerkauf of Menominee to be the representative of its organization to the National Board of Fur Farms Organizations, Harold Pipkorn of Hermansville was appointed the alternate representative. The National Board represents the entire mink industry on the national level. After final approval of the application, the UMBA will be the 40th member of this Board which represents 6,800 mink ranchers in the United States.

Ronald Knight, sales manager of the Federal Foods Company of Thiensville, Wis., spoke at the regular meeting of the UMBA last night at the Ford River Town Hall. His subject was "Nutrition of Mink During the Reproductive Season."

Knight emphasized again the dangers of feeding too high a ration of fat this time of the year. He asserted that too high a level of fat in the ration would cost the rancher one young kit per litter.

A mink rancher can avoid the dangerous effects of excessive fatty acids in the diet by the proper nutritional balance of cereals and fatty foods, such as meat and certain types of fish.

Otto Thiel of Atco Company in Milwaukee was introduced and spoke briefly on the good that mink associations can do for the individual fur farmer and the fur industry.

The association accepted into its membership Steve Buyarski of Menominee.

# President Condemns McCarthy's Tactics; Calls For Fair Play

(Continued From Page One)

serve the undivided and incessant attention of a Congress, of the executive branch, of the public, information media of our nation, of our schools and even of our churches," he added.

"I regard it as unfortunate when we are diverted from these grave problems—of which one is vigilance against any kind of internal subversion—through disregard of the standards of fair play recognized by the American people."

"These incidents are all the more useless and unfortunate in view of the basic dedication of every loyal American to the preservation of our nation and advancement of America's safety, prosperity and well being."

Eisenhower said he and everybody in the executive departments recognizes Congress' right to "investigate into every phase of our public operations."

Observing that there ought to be a true spirit of cooperation between the branches of government, he said such cooperation "is possible only in an atmosphere of mutual respect."

The President said that when he was testifying as a military officer he never saw any member of Congress "guilty of disrespect toward the public servants who were appearing before him." He said he intends to preserve the tradition of mutual respect between executive witnesses and members of Congress.

# Theft Of Money Order Blanks Led To Prison Term

MARINETTE—Jerral R. Blanchard, 33, of Marinette, was sentenced to four years in a federal correctional institution Monday by U. S. District Judge Robert E. Tehan, at Milwaukee, who found him guilty of stealing, forging and cashing money orders.

Blanchard, arrested Dec. 30 at Reno, Nevada, pleaded guilty to stealing the money order blanks.

At the request of his attorney, Blanchard will be sent to the federal medical center at Springfield, Mo., for treatment as a heavy drinker.

Blanchard stole 110 money orders from the postal substation at Marinette. The store was entered through a window November 24.

Unger was elected to the post at the closing business meeting during the 20th annual convention of the organization, here Saturday afternoon. He succeeds O'Neil D'Amour, Gladstone, who was named as the group's board of directors.

Other officers are Everett H. Frailing, Iron River, vice president, and Harold Brown, Hancock, secretary-treasurer.

Buck Honorary Member

S. H. Buck, Marquette, and U. F. Asselin, Norway, were named honorary directors of the association.

Other members of the board elected Saturday are Marvin Stephenson; Roy Fassbender, Marquette; Clarence Voeke, Menominee; C. W. Weis, Ontonagon, and Bert Jeske, Pickford.

Holdover members of the board are William Plansky, Escanaba; William Jilbert, Lake Linden; R. H. Brown, Hancock; Donald Kellogg, Iron Mountain, and Frailing and Unger.

# Ore Miners Plunge 400 Feet To Death When Bucket Upsets

MORGANTOWN, Pa. (AP)—Two miners plunged 400 feet to their death Tuesday night at the new Grace Iron ore mine of the Bethlehem Steel Co. when a bucket hauling them to the surface tipped over.

Eight other men in the bucket were seriously injured when the lift struck a steel support and almost overturned as it was being raised up the 1,200 foot shaft.

The eight survivors were able to hold on to the sides of the hoist. Most of them suffered broken bones.

MENOMINEE—To conform to Michigan law which requires that salaries of elective officers must be determined prior to election, City Council has approved an annual salary for the city treasurer of \$3,300 for the two-year term starting this spring. This is an increase of \$300 over the present salary and conforms to a general \$25 a month cost-of-living bonus granted department heads during the past year.

IRON RIVER—Mrs. Hilda S. Makela, former Iron River resident who two years ago moved to Waukegan, Ill., believes in keeping busy. Since leaving this area for Illinois, she has not only established a children's day nursery, but she has managed, also, to design and perfect several inventions, according to word received by friends in this district.

IRON RIVER—Rudolph Vogel, Chicago investment broker who has a farm and estate at Maggie Lake, Pentago, is helping the Iron River Business Men's association and cooperating groups to arrange a conference with railroad officials in Chicago on the possibility of extending Chippewa passenger train service to Iron River.

IRON MOUNTAIN—Lowering the voting age to 18 years, as urged by President Eisenhower, would add about 1,046 names to the poll books in Dickinson county, and 743 in adjoining Iron county, according to Census Bureau calculations received here today from Washington, D. C.

# Wall Street

NEW YORK (AP)—An advance in the stock market today was pegged to a few strong issues.

Some gains raced ahead two to five points at times, but the great bulk of the plus signs were less than a point. Losses seldom reached as much as a point.

Business hit a pace of around two million shares for the day. Tuesday's total was 1,980,000 shares.

Westinghouse Electric was up between three and four points at times after a gain of 2 1/2 points Tuesday. There was some feeling that the higher price was based on hopes for a split.

Texas Pacific Land Trust gained nearly five points and Amerasia Petroleum was up nearly three.

Also higher were Northern Pacific, American Cyanamid, National Can, Bethlehem Steel, Chrysler, Curtiss-Wright, and Radio Corp.

U. S. government bonds were fairly steady.

court to defend Oscar Collazo when he and another Puerto Rican Nationalist tried to assassinate former President Truman in 1950. Collazo was sentenced to die, but Truman later commuted the sentence to life. Collazo's companion was shot down by White House guards, one of whom was killed.

Regarded As "Patriots"

The four involved in Monday's incident face five charges of assault with intent to kill. The maximum penalty would be 75 years in prison.

Those held are Mrs. Lolita Lebron, 34-year-old divorcee and acknowledged leader of the quartet; Rafael C. Miranda, 25; Andres F. Cordero, 29; and Irving Flores Rodriguez, 28, all of New York City.

Their avowed purpose in invading the House with pistols and shooting wildly was to call attention to the Nationalists' campaign for Puerto Rican independence—a cause which Puerto Ricans have rejected at the polls several times.

Julio Pinto Gandia, head of the New York wing of the Nationalist party, referred to the four as "patriots" in a statement issued there, and he added: "We shall do all in our power to aid and defend our four compatriots in their hour of trial."

But Gov. Luis Munoz Marin of Puerto Rico flew here hurriedly and told President Eisenhower all Puerto Ricans protest "this outrage." He told newsmen he had no proof Communists were involved but that "the behavior of these people" indicated a possibility of Communist activity.

Chicago FBI chief Guy Bannister said Mrs. Lebron's brother, Gonzalo Lebron, 30, is under surveillance. He added there is no evidence that he had any connection with the shooting.

# British Budget Calls For New-Look Buildup In Atomic Strength

LONDON (AP)—The House of Commons approved Britain's record peacetime defense budget Tuesday night 295-270.

The budget, pointed toward a "new look" buildup of British air and atomic strength as a deterrent to war, provides for the spending of 1,639,000,000 pounds (\$4,591,720,000) in the fiscal year starting April 1. It tops the announced outlay for the current year by 3,140,000 pounds.

The Laborites criticized individual points in the Conservative government's defense program, called for a cut in conscripts' service terms from two years to 18 months and urged a reduction in the deployment of British troops around the world, particularly in the Suez Canal zone.

## Prison Survey Costs Legislature \$75,000

LANSING (P) — It cost the Legislature \$75,000 to get a third recommendation on the size of a proposed new prison for youthful offenders.

A report on a survey of Michigan prisons, needs by an engineering and an architectural firm recommended the prison be built to house 800 men.

The Corrections Commission has already recommended a 1,200-man prison. The wardens of the state's three prisons have recommended it house 600 men.

The 72-page survey report was prepared by Chester J. Clark and Associates, engineers of Grand Rapids, and Leinweber, Yamasaki and Hellmuth, architects, of Detroit under contract from the State Building Division.

The report recommended spending \$9,836,000 to build the 800-man medium security type prison, to serve as the educational center for the state penal system.

The engineers and architects took no stand on the location of the new prison but included detailed surveys of proposed sites at Ionia and Manistee and in Arenac, Kent, Livingston, Macomb, Saginaw and Washtenaw counties.

The reports recommended a \$14,000,000 long range building program, including \$7,000,000 for a new prison medical center, \$4,000,000 for a state women's prison and \$3,000,000 for a reception and diagnostic center separate from any prison.

The report said the state could expect to have an additional 1,700 prisoners by 1960. The 9,000 prisoners now in state custody are overcrowding present institutions, because the state "has constructed no major correctional facility in 20 years."

## Ambush Nest Village Of Indochina Rebels Obliterated By French

HANOI, Indochina (P) — The French announced they've wiped the Village of Luong Kiet, in the Red River delta, off the map because it was an ambush nest for the Communist-led Viet-minh rebels.

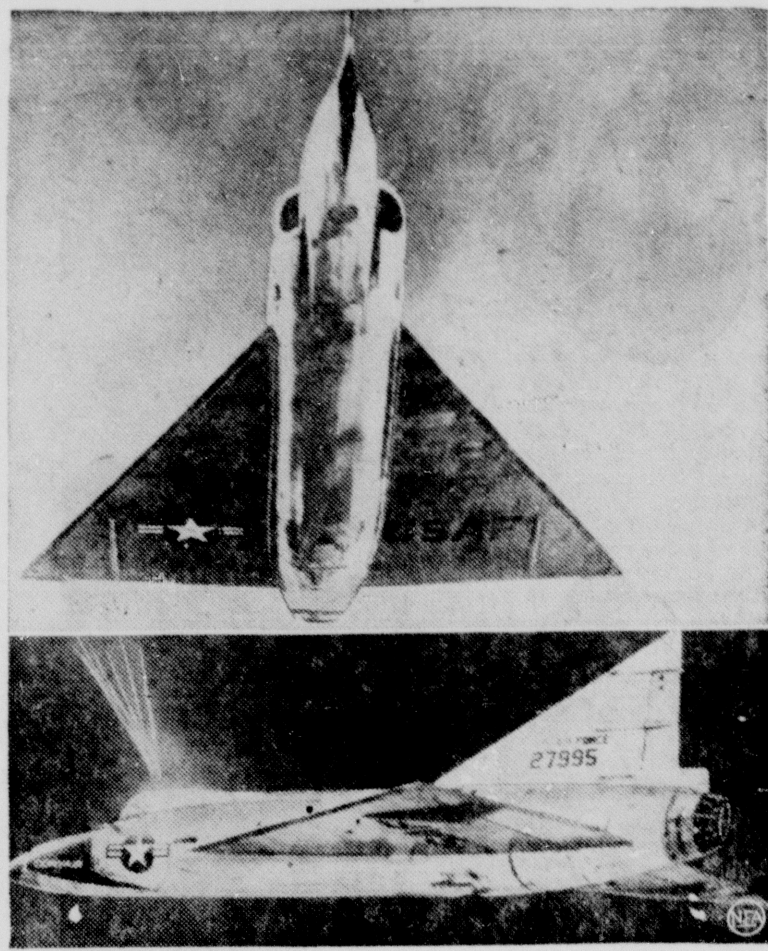

French Union troops chopped up the hamlet's bamboo and straw-thatched huts, long deserted by 1,500 or so rice growing Vietnamese who formerly lived there.

Army bulldozers flattened the wreckage.

The village was 55 miles south-east of Hanoi.

Elsewhere in the delta today the French reported killing 20 Viet-minh and capturing 24 in minor mopups.

A quart of sea water may contain as many as 100,000 microscopic organisms called plankton on which fish feed.

# Swing To Wallpaper Foreseen For Spring

By SAM DAWSON  
NEW YORK (AP)—Wallpaper makers say they are going to take on the paint people in earnest this spring.

Citing what they believe to be a swing back to papered rooms—ever since the American public rediscovered Williamsburg, Va., and other colonial scenes—wallpaper makers announced today they've got up a half million dollar kitty for the newly-formed Wallpaper

Council to use in promotion.

**Fancy New Patterns**

They are out after a larger share of the growing do-it-yourself market with methods which they claim make it all but impossible for you to wind up with more paper on yourself than on the wall.

They will tout plastic-treated papers which they say can be scrubbed many times, and therefore last much longer than older methods of covering wall.

And, along with classic American designs, they have some fancy new ones—such as a forest of television antennas on roofs, roosters sipping at a bar presided over by a chicken with a cocktail shaker, or one playing up the antique car fad.

Decorators trace the revival of interest in wallpaper to the many projects of restoring colonial houses and towns around the country. The thousands of visitors to these places get a better idea of how wallpaper looks in a house than ever they can be viewing it in rolls in the stores.

**Paint Sales Rise**

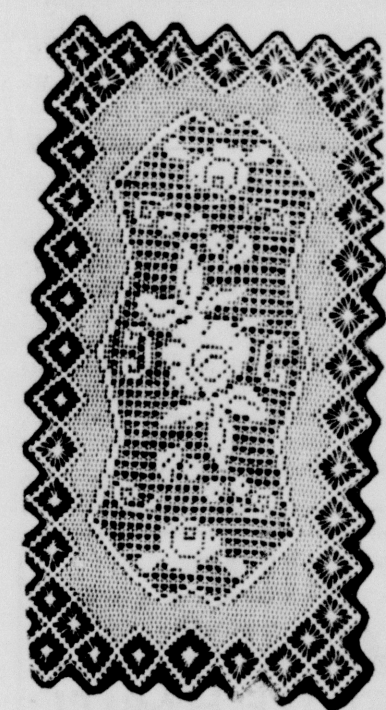

The wallpaper makers stress that much of the recent gain in their business is due to what they call "more technical improvements in wallpaper in the last two years than in the previous 30 years."

Paint manufacturers aren't too frightened, however. They can point to a rise in annual sales of interior-wall paint from 100 million dollars before the war to 400 million or more now, or eight times the volume of paper.

Papers come pre-trimmed and pre-pasted, some with a self-contained paste that is supposed to stay liquid for 20 minutes. This gives the home fixer-upper a chance to jiggle the paper around a few times while matching it to adjoining pieces.

Decorators say that so many of the postwar homes are stripped of color and pattern that homeowners are ripe to be sold on wall styles that will restore what they miss.

World production of coal and lignite exceeds 1.7 billion tons per year, with the United States producing one-third of the world total.

## Wisconsin Raises Fishing Licenses For Non-Residents

MADISON—People from other states will pay \$5 instead of \$4 for the privilege to fish in Wisconsin this year and the prosperity level may be down from a year ago but the conservation department is making preparations to sell its usual number of non-resident fishing licenses.

Chicago sporting goods stores report a record number of inquiries as to Wisconsin fishing licenses and nobody seems to have any interest in the nominal increase in non-resident fishing license fees.

On the basis of their winter experience, the stores predict a heavy migration northward in the vacation season.

An unpredictable factor is the weather with more people going north in hot weather than when apartment life is more enjoyable.

Extensive unemployment may not seriously reduce Wisconsin's tourist traffic. Some of the state's regular customers may be lost. On the other hand many who in more prosperous times seek distant, expensive vacations can be expected to take a more economical vacation in this state.

Wisconsin's winter fishing has had wide publicity this year and is believed to have had an effect in stimulating the interest of prospective summer fishermen.

Wisconsin continues to hold its position as the most popular fishing state in the union, a fact established by more out-of-staters coming here than to any other state. Two states with larger populations sell more resident fishing licenses. But no state equals the more than 300,000 non-resident fishing licenses sold here.

## Opinion Upset Wedding Plans

ANKARA (AP)—A blind man stood in line for a marriage license. A friend came along who hadn't seen him for some time and, told the name of the intended bride, exclaimed: "But she's ugly!"

The blind man muttered "They told me she was pretty."

He felt his way out of the office and wasn't seen there again.

## GROWING SPIRITUALLY

By  
E. STANLEY JONES

Mark 4:26-29 (R.S.V.)

### YOU ARE MADE TO GROW

You are made to grow. The creative God made you for creative growth. Growth is the law of your being. Violate that law, and you violate yourself. You are unfulfilled, hence frustrated and unhappy.

I grant that the body ceases to grow after a certain time, and the slow process of slowing down and eventual decay sets in. This process of slowing down and decay may be minimized and postponed by inner states of mind and soul, but in the end the body is destined to the dust. Not so the mind and the soul. They are not necessarily linked with this inevitable bodily decay. They may be.

Many people are so closely linked with their bodies that the decay of the body means the decay of the person. They have lived to make the body comfortable—to ward off sickness and death from it, to satisfy the cravings and appetites—so that their very persons are bound up with the fortunes of the body. When it decays, they decay. Life's supreme tragedy is to watch the triple decay of body, mind, and spirit in yourself or in another. No tragedy can compare with this.

This decay of the person causes more unhappiness than all other causes combined. All other causes are marginal; this is central. For to know, consciously or unconsciously, that the central purpose of your being—the thing for which you are made—is unfulfilled, or worse, is being violated, is to cause a central and fundamental unhappiness to settle at the very center of your being.

No amount of marginal happiness or adjustment can atone for this central dissatisfaction. If you are not a creative and growing person, you are an unhappy person. This central frustration spreads its dissatisfaction through all marginal satisfactions and makes them curdle and sour. Dissatisfaction with life in general sets in.

On the other hand, when you are fulfilling the law of your being by being a growing personality, then this spreads its central satisfaction through all the marginal happenings of life. Whether these happenings are unhappy or not, you are centrally happy. Human happiness is a by-product of being a creative, growing personality.

O creative God and Father, help me to see the wonderful possibility of being a continuously growing person—now and forever. Amen.

AFFIRMATION FOR THE DAY: I am made to grow. I will fulfill the purpose of my being.

### STOLEN, ONE BORDER

SAN DIEGO, Calif. (AP)—Someone stole a strip of the United States-Mexican border, as represented by barbed wire, a border patrolman reported here.

The missing length of wire, which he estimated was about as much as could be loaded on a jeep, was gone from the Pacific ocean and inland. Jeep tracks were noted.

## LOST 34 POUNDS Dearborn Lady Likes Rennel

"My physician advised me to lose weight because I was suffering severe attacks which foreshadowed an operation. My weight had to be reduced before an operation could be performed," writes Mrs. Alvin Miller, 6461 Barry St., E. Dearborn, Mich. "Rennel Concentrate was agreed upon as the reducing aid. I started to take Rennel about five months ago and weighed 172 lbs. Now I weigh 138 lbs. and am delighted to have lost that much up to now. Not only have I lost 34 lbs. but I have never had another attack. My physician is also pleased since he did not really want to operate for various reasons. I do not want to be without Rennel Concentrate in my home at any time. I feel certain that it will do for others what it has done for me."

Correct weight and regularity are so important to good health. If not pleased with the very first bottle return it to the manufacturer for your money back. Price \$1.40. Insist on and be sure to get genuine Rennel.

## New Floor Care Ends Waxing

One of the most difficult jobs of housekeeping is to keep linoleum and asphalt tile floors waxed and gleaming. Now, thanks to Glaxo, it is no longer necessary to wax and scrub. All you do is apply Glaxo with a brush about twice a year. It maintains a high lustre, non slip coating that seals out dirt. Glaxo dries in one hour and is water clear. It's cheaper than wax in the long run, besides saving a terrific amount of work, plus truly a beautiful floor. Glaxo is available at the Fair Store, Escanaba. (Adv.)

## Norway Sardine Omelet Can Make Tasty Lenten Lunch

NORWAY SARDINE OMELET, garnished with pimiento rings and lemon slices, makes delicious meatless main dish.

### By GAYNOR MADDUX NEA Food and Market Editor

LENT begins tomorrow. We asked Joseph Castaybert, executive chef of the St. Regis Hotel in New York, one of our favorite places to dine out, to invent some meatless main dishes for our readers. He obliged with these two:

#### Norway Sardine Omelet (2 generous servings)

One (3 3/4-ounce) can Norway sardines, 6 eggs, 1 teaspoon salt, 1 tablespoon butter, 1 small sprig parsley, finely chopped, 1/2 peeled lemon, sliced; 1 canned red pimiento, cut in circles.

Mix the eggs with a fork and add the salt. Do not beat the eggs too stiffly. Place butter in skillet and let it become brown to make the eggs congeal quickly. Place the eggs in the butter and stir briskly with a fork. Roll the omelet into an elliptical shape—it should be creamy inside, unless desired well done. Arrange on platter or small baking dish with half a can of Norway sardines at each end. Pour a little melted butter on the sardines. Garnish with slices of peeled lemon.

## The Weight of Public Opinion is Against the Excise Tax on Telephone Service

"Which Federal excise tax do you personally object to most?"

That question was asked recently in a public poll conducted by Opinion Research Corporation. They wanted to learn how people personally felt about Federal excise taxes. These were their findings: THE EXCISE TAX THAT INCURRED THE MOST RESENTMENT AND IRRITATION WAS THE TAX ON TELEPHONE SERVICE.

Of the people interviewed, 59% objected most to this tax. It was more objectionable than the Federal excise taxes on gasoline, automobiles, tires, railroad tickets, cigarettes, movie tickets, and many other things.

This high percentage of objection to telephone excise taxes is understandable. Each month they add 15% to your telephone bill for local service, and 25% to your bill for long distance calls costing 25 cents or more. For excise tax purposes, it's as though your telephone were a luxury, like jewelry or furs.

We recognize the Government's need for adequate income and for balancing the budget. But if Congress is to consider any excise tax reductions, we believe the excise taxes on telephone service should be among the first to get attention.

All the savings from a reduction or repeal of these taxes would go to telephone users—not to the telephone company.

## Michigan Bell Representative Is Lions Club Speaker

ROCK—A fine talk on the great progress that has been made and also what is being planned for the future to speed long distance telephone calls by the Bell telephone companies was given by Roy D. Zwerner of the Michigan Division office at Menominee, at the regular meeting of the Rock Lions Monday evening. He was introduced by George Marcouiller, Escanaba exchange manager of Michigan Bell.

Mr. Zwerner pointed out that if dial system could be used for local calls, it could also be used for long distance toll calling. In 1920, for instance, in order to place a call from Escanaba to Wilmington, Calif., the local operator had to call Detroit, Chicago, Los Angeles, among other cities before she could get Wilmington. Now the local operator dials Detroit central control station and the next ring is Wilmington, Calif.

**Grand Rapids 616**  
This is possible because Detroit is one of the 25 central stations now in operation in the United States. A total of 70 such stations is necessary to cover all United States and Canada. When the station in Grand Rapids will be opened for service, that will take care of the Upper Peninsula, instead of Detroit. Its number will be 616. Then if the patron wants California, the local operator will dial 616 and the number of the person he wishes to speak to and all the connections will be completely automatic.

In Inglewood, New Jersey and Birmingham, Mich., the patron may place his own long distance call, just like a person dials his next door neighbor. Only when the patron does not know the number of the party he wishes to call or if it is a person to person call, does he require the assistance of the operators.

**Red Cross Drive**  
Mr. Zwerner also demonstrated how operators in many places now use the swift musical tones which they obtain by pressing a button which is far faster than the old dial method to get the correct number.

Where it took about 5 minutes to place a call from New York to California in 1920, and cost about \$15 for the first three minutes of conversation, the same call may now be made in about a minute and a half and costs approximately two dollars for same three minutes.

It was announced at the Lion's business meeting that Maple Ridge township chairman for Red Cross, Arne Johnson, has appointed the following to solicit for the Red Cross in this area: John Norman, Fred Seppanen, John E. Niemi, Frank Brander, Clifford Carlson, Ernest Fosterling, Henry Jokela, Walter Mantie, Francis Trombly, Albert Weldrum, Arne Johnson, John Jokela, John Selin, Vaino Salmi, George Weingartner and John Severinsen.

## Style Fad Inspires Child's Clothes Care

By ALICIA HART  
NEA Beauty Editor

Ribbons are one of the top fashion fads of the sub-teen crowd this season. They are seen on hats, hair, blouses, just about anywhere a youngster may think to put one.

The fad has one very definite virtue: It affords a mother an opportunity to train her daughter in wardrobe care.

It is no trouble to point out the difference between a fresh ribbon and a slightly soiled one that has become crumpled with repeated knotting.

And when she sees how easy it is to keep her ribbons looking crisp, any young miss will be interested in assuming this responsibility.

All she need do is whisk her ribbons through lukewarm suds and rinse them a few times in clear water. Then, after rolling them in a towel to remove excess moisture, she can "paste" them against the bathroom tile or over the edge of the bathtub to dry flat.

If added stiffness is desired, pressing will be necessary. She should use a cool iron and press the ribbons on the wrong sides with a press cloth between them and the iron to prevent shine.

These instructions apply to all ribbons but velvet, which should be taken from the final rinse water and hung on a towel rack to drip-dry.

## How To Hold Your Husband

By VIVIAN BROWN  
AP Newfeatures Beauty Editor

A pretty breakfast outfit is more important than a frivolous hat in holding your husband. So says lovely Marjorie Reynolds, TV star, formerly of the movies, on a visit to New York. Says she: "Women worry about owning cocktail dresses, evening gowns and pretty hats. But when it comes to morning clothes, they are willing to shuffle around in any old thing. An attractive breakfast wardrobe would go a long way in keeping romance alive."

Marjorie believes too many women concentrate on dressing for girl friends, neighbors and bridge party companions, instead of their husbands. She explains: "Why do women break the bank to buy silly hats their husbands detest, just to impress Mrs. Jones? I used to make that mistake. But this shopping trip has been different. I spent a few dollars on a couple of smart hat-bar numbers and put the rest of my hat budget into a fancy nylon peignoir."

### Much Better

Marjorie's husband, John Haffen, a Hollywood picture cutter and former movie star, grinned and confirmed his wife's opinion that the frothy negligee was a big improvement over her old tired bathrobe.

Marjorie, the glamorous Mom of "The Life of Riley" TV show, thinks every wife should look so attractive at breakfast that her

husband hates to go to work. She suggests that hair and face should be completely groomed and that sloppy bedroom slippers be discarded in favor of dainty high-heeled footwear. John interrupts to say:

"Thank heavens Marjorie isn't the morning curlers type." "Curlers ruin lots of marriages," says Marjorie. "A woman

would have been appalled in courtship days if her swain saw her in an ugly hair rig. But as soon as she gets her man, she lets herself go."

Women miss a good bet if they don't breakfast with their husbands. And every smart woman, according to Marjorie, should plan a half-hour relaxation session with her husband before

dinner. Says she:  
**Sit Down With Him**  
"Even if you don't drink cocktails, sit down and have a glass of fruit juice with him while he sips his before-dinner aperitif. If he doesn't imbibe, serve the first course — cheese and crackers, soup, juice or whatever — in the living room. Try to wear your husband from the idea that dinner should be waiting on the table when he gets home."

After bleaching her hair for fifteen years, Marjorie finally let the grey through. Her husband loves it and it hasn't hurt her television popularity. The fans still write in to tell her she's much too young to be Ma Riley.

It's much smarter to act your age, she says. Older girls are having a heyday, she reminds us. The loveliest Irene Dunne, Joan Crawford, Marlene Dietrich, and movie stars of their era. Marjorie thinks that women in those days applied common sense to their beauty program, instead of stressing "oomph", the fleeting quality of frivolous youth, so popular today.

## Will Observe 4-H Club Week Here

Activities to initiate observance of National 4-H Club Week, March 4-16, in Schoolcraft County are scheduled for an adult recreation meeting to be held Saturday night, March 6 in Manistique township hall, Clayton D. Reid, county agricultural agent, reports.

Schoolcraft County has 13 active clubs with a membership totaling 300. Since 4-H club work was started here more than 30 years ago, the program has been an active one, and, even when an agent was not available in the county, as many as 300 club members were active, he notes.

During the program Walter Linderoth of Manistique will be presented with the 4-H Club alumni award.

The adult recreation meeting at 8 p. m., Saturday is for home extension club members and their husbands, but everyone is welcome. Club members are asked to bring refreshments and sandwiches, cookies or cake for a lunch.

## Not Guilty Verdict Returned By Jury In Kerridge Case

A jury of six Tuesday found Fred Kerridge, 58, of 319 Deer St., not guilty of a charge of failure to yield right of way.

Kerridge was ticketed by city police following an accident Feb. 9 in which cars driven by Kerridge and Henry Gagnon, 68, of 209 N. 2nd St., collided on Deer St., near the Houghton Ave., intersection. Kerridge was coming from an alley and Gagnon was going west on Deer St., police report.

Upon arraignment Feb. 19, Kerridge pleaded not guilty and date for trial was set at March 2.

Serving on the jury were Marvin Mercier, Fred Hinkson, Albert Hedberg, Frank Voisine, James Miller and Walter Nelson.

## Teen-Age Dances Held Each Week

Last week, approximately 150 teen-agers attended the youth dance. M. Sgt. Paul Dragos and M. Sgt. Everett Patz are in charge.

## Boy Wishes On Star For Bike; Gets It After Tumbling Out Window

ROCHESTER, N. Y. (AP)—Nine-year-old Johnny Galvin was doing his wishing on a star for a bicycle from a second-story window when out he tumbled. He grabbed a ledge and held on until a neighbor caught him in a blanket. He suffered only a bump on the head.

E. R. Hershey of Plymouth, Mich., read of the mishap and sent Johnny a bicycle. It arrived Tuesday.

The star-gazer set out on a tour of the neighborhood, lost control and the bike wound up against the rear of an automobile. But that star apparently still was in charge. Johnny escaped injury and the bike came through with nothing more serious than a bent front wheel.

## Bellini Songs Found

CATANIA, Sicily (AP)—The original manuscript of a long-forgotten series of sacred songs by the 19th Century composer Vincenzo Bellini have been discovered here between the pages of a book. The songs, grouped under the title "Three Hours of Agony," were written when the musician was only 14. Bellini composed the opera "Norma."

## FIRE KEPT BURNING

About a century and a half ago, in the mountains of North Carolina, John Morris kindled a fire in his hearth and, since fires were hard to start with flint and tinder, he kept it burning. Sentiment grew around the blaze, and each succeeding generation took over the task of keeping it alive. It is still burning.

## Bethel Baptist Minister Coming

The Rev. Douglas Stimers of Midale, Sask., Can., has accepted a call to become pastor of the Bethel Baptist church in Manistique.

Confirmation of his acceptance was received by telegram here Monday, and the new minister is expected to arrive about April 1.

He is a graduate of Bethel College and Seminary in St. Paul, Minn. His family includes his wife and four children.

Since June 1, 1952, when the Rev. Harold Martinson left, the parish was without a pastor until the Rev. V. E. Anderson became interim pastor Jan. 1.

## Plan Ski Party At Thunder Lake

Plans are being made for a ski party in the Thunder Lake area Sunday, Art Allen, Manistique ski advisor, reported today.

During the outing, Manistique skiers, who this year have notched enviable records in tournament competition, will practice slalom skiing.

Sunday at Iron Mountain three Manistique skiers tried Pine Mountain hill, and Jack Swartstrom jumped 230 feet. The record for the hill is 248 feet, set by Wilbur Rasmussen of Ishpeming this year. Jim Cowman jumped 200 feet and Dan Harbick 170 feet.

## Norton Secore Funeral Services Are Held Tuesday

Funeral services for Norton H. Secore, of 227 Lake St., who was fatally injured Feb. 24 in Bradenton, Fla., were held at 2 p. m., Tuesday from Messier-Broulliere Funeral Home with the Rev. A. Barton Brown, pastor of the First Baptist church, officiating.

Mrs. Scott Creighton was organist for the services, which included full military rites.

Serving as pallbearers were James Howland, Archie Carpenter and John Nessonman of the Veterans of Foreign Wars and Ted Monroe, Kenton Billings and Robert Hewitt of the American Legion.

Colorbearers were Everett Anderson and Albert Ackerman. Lionel Mercier was military chaplain and Willard Garvin was bugler.

Men of the 107th Engineer combat Corps, National Guard, served on the firing squad, with Capt. Edward J. Doyle as sergeant-at-

arms. On the squad were Sgt. Everett Patz, Sgt. Lloyd Carrothers, Sgt. Robert White, Cpl. Wayne Wolfe, Cpl. John Glasstad, Pvt. Wayne Stanley, Pvt. Harry V. Kaiser and Cpl. Richard Russell.

The body was placed in Lakeview cemetery vault and burial will be made in the spring in Fairview cemetery.

## Mark World Day Of Prayer Here Friday Afternoon

Church women of the community will observe World Day of Prayer Friday with a service at 2:30 p. m., in the First Baptist church.

The program will consist of readings by several women from the various churches here.

A film strip will be shown and vocal solos will be offered by Mrs. Claude B. Lyon.

All women of Manistique and surrounding area have been invited to attend.

# Major Battles Are Shaping Up

By CONGRESSIONAL QUARTERLY WASHINGTON (CQ) — Veteran Washington lobbyists predict a jam-packed season for the pressure groups in 1954.

Beyond the reach of TV cameras, lobbyists are already at work to influence action on a host of issues ranging from the farm program to imports of wooden clothespins and storage of duck feathers.

As the Administration's program unfolds, major battles are impending over reciprocal trade, farm price supports, electric power, Taft-Hartley revision, taxes, health, aid to education, housing and other topics.

On most of these issues, the lobbying battle-lines seem to be more sharply drawn than usual, with organizations less willing to compromise, and more inclined to slug it out.

Here are some of the leading issues and lobbyists involved.

## Tariffs And Kilowatts

The fight over reciprocal trade involves two opposing blocs of industrial, farm and labor interests. One, led by the National Committee of Industry, Agriculture and Labor on Import-Export Policy, is plugging for "adequate tariffs to protect U. S. industry."

Support for lower tariffs and liberalized trade is coming from a coalition headed by the Committee for a National Trade Policy, whose chairman is John S. Coleman, president of Burroughs Corporation.

While these blocs square away, a red-hot dispute is developing over President Eisenhower's message advocating the use of flexible farm price supports starting in 1955.

Leading the fight for flexible supports is the American Farm Bureau Federation. An opposing bloc, led by the National Farmers Union, wants supports pegged at 90 per cent of parity, or higher.

A lobby battle over the Interior Department's new power policy is currently picking up voltage. Private utilities, most of which belong to the National Association of Electric Companies, favor the policy in principle, while bitter opposition is coming from a coalition of public-power advocates led by the American Public Power Association and National Rural Electric Cooperative Association.

In still another corner, both industry and labor have their sleeves rolled up for an all-out fight over revision of the Taft-Hartley Act. The Cio and AFL want the act repealed — or failing that, amend-

ed to change its "anti-labor bias." The Chamber of Commerce and NAM believe the law's restrictions on labor should be made even tighter.

### Housing, Old Age

Housing lobbyists foresee possible clashes over the Administration's program of slum clearance and urban redevelopment. On one side are interests which feel that government officials are setting their sights for housing construction in 1954 too low, and that an aggressive public housing program is needed.

This viewpoint is held by the National Housing Conference, the National Association of Housing and Redevelopment Officials, CIO, AFL, and the Cooperative League of the U. S.

On the other hand, builders' associations, led by the National Association of Home Builders, favor gradual withdrawal of government from the public housing field.

In the field of social security, the Chamber of Commerce of the U. S. is trying to drum up Congressional support for its own program. This is designed to end federal old-age contributions, but maintain present benefits and expand coverage, by taxing more workers than at present.

AFL and CIO are attacking this plan as "clever and dishonest." The American Medical Association favors its own special formula for determining pension eligibility — one which would avoid medical standards. AMA doctors fear the latter may open the door to "socialized medicine."

Townsend Plan officials are waging a bigger fight than ever to get consideration of bills incorporating their own pay-as-you-go plan.

### Clothespins, Feathers

Among other lobby battles expected to develop in the current session, the powerful veterans' bloc will fight to continue treatment of non-service-connected ailments of ex-GI's in hospitals of the Veterans Administration. It will be opposed by AMA, which wants this treatment ended, on the grounds that it smacks of "socialized medicine."

The National Education Association and other school groups are ready to do legislative battle for adequate funds for federal school programs, if necessary.

The Clothespin Manufacturers of America will be on hand, to warn that wooden clothespin makers face ruin unless low-cost imports are checked. The Feather Sales Agency of Long Island will support its plan for a strategic stockpile of duck feathers.

### Turkish Aid Has Been Given Before

ANKARA (AP)—President Grant beat President Truman to the punch by more than 70 years with military aid to Turkey. Shukru Kasabolu, local historian says the sultan sought to buy 600,000 Springfield rifles from the United States some months before Russia declared war, in April 1877.

The makers couldn't fill the hurry-up order so President Grant authorized drawing 50,000 rifles from government stores for immediate shipment. Records indicate the American guns proved far superior to the rifles used by the Russians. The sultan was so pleased, Kasabolu adds, that he dispatched a specially-woven Turkish carpet to Grant as a gift.

Under the aid program, which began in 1947, the United States has furnished Turkey with more than a billion dollars in military and economic aid. The purpose is the same: to bolster Turkey against Russia.

### Weather Brings Compensation

NORWICH, Conn. (AP)—An ice cream parlor gave customers free coffee during a snowstorm. Explained the management: "Any one who comes out on such a day deserves such recognition."

## Daggett

DAGGETT — A capacity crowd attended the Daggett Volunteer Firemen's Ball at Belknaptown Saturday night. Arrangements for the ball were made by Chief Vernon Ross, Francis Stodola, and Louis Machalk. Music was furnished by Al Desjarlais and his orchestra. Pete Thounne donated the hall.

**Extension Work Shop**  
A Demonstration Workshop for Extension Leaders will be held at the VFW Hall in Daggett today, March 3, at 7:30 p. m. All club leaders and 4-H members 14 or older are invited to attend. A short period of recreation and lunch will follow the school.

**Bundle Day Project**  
Daggett School children are planning to bring outgrown, used, or new children's and adult clothing to school on Bundle Day. This project is in cooperation with the Save the Children Federation, Inc. Michigan State Chairman is Clair L. Taylor, superintendent of public instruction.

**Briefs**  
Mrs. Donald Arvid and daughter Arleen have returned to Hammond, Ind., after visiting Mrs. Arvid's parents, Mr. and Mrs. Walter Ekman, for several weeks. Arleen attended the Daggett School while here.

With Ray Crandall

The Upper Peninsula's lone representative in Chicago Tournament of Champions, Tommy Betts of Marquette, gave a good account of himself when he moved through the opening round Monday night to advance to tonight's quarterfinal eliminations. . . . Betts drew a bye in his first match and then stabbed out a decision over a Peoria, Ill., champ to survive the first round pairings. . . . He will have to fight twice again tonight in order to gain the finals.

It's tough enough for a fighter to get through the Upper Peninsula championship tournament, to say nothing of the Milwaukee Journal sessions. . . . But when you get to Chicago you're really among the men. . . . If we recall correctly, Milwaukee hasn't put a champion through the Chicago tournament in something like 20 years. . . . Norman Johnson, the Milwaukee lightweight who stopped Earl St. Louis of Canada in the Journal tournament, was extremely impressive in scoring two first-round wins at Chicago Monday night. . . . He is one of the favorites to cop a title.

An oddity in the Chicago pairings was noted by Manistique's Fr. George Pernaski. . . . Richard Bartman of Milwaukee, who earned an unpopular decision over Harvard Lancour of Manistique in the Journal tournament, was eliminated by the same fighter that beat Lancour last year in Chicago. . . . He's Johnny Palmer of Columbus, Ohio.

A former Iron Mountain native was recently named to succeed another ex-Iron Mountain man as head coach at Green Bay West High School. . . . John Biolo was hired to replace Frosty Ferzacca, who moved up as coach of Marquette University's grid team. . . . Biolo was captain of Lake Forest College's undefeated 1938 team and played for the Green Bay Packers and the Iowa Seahawks Naval grid squad before turning to coaching.

## Two New Marks Were Set During U.P. Court Season

What team has won the most Upper Peninsula high school basketball tournaments? What team has won the most in succession?

The answers, found in the growing list of records being prepared by the U.P. Sports Writers Association, are Ishpeming and Crystal Falls, respectively. The Hematites have won 13 during the 41-year history of Peninsula cage meets, going way back to 1913 to take the first ever held and capturing the 1952 event for the most recent.

Crystal Falls' supremacy in Class C was the most pronounced of any school in any division during the four decades the tournaments have been held. The Trojans won six in a row from 1938 to 1944 (no U.P. tournament was held in 1943).

### Two New Marks

At least two new marks are to be written into the sports writers' record book at their spring meeting in Ironwood the last Saturday in March.

Mass, as usual, figures in one of them. The Rockets won a 99-79 decision Feb. 2 from Trout Creek. That total score of 178 exceeds by six points the two-team record, set by the same quintet, registered at Mass Feb. 8, 1952.

The other new mark is Perkins' 10 points posted against Engadine Dec. 11, 1953, topping Ironwood St. Ambrose's Jan. 18, 1952, record by three points.

It's also possible that Rapid River may come up with one or two new marks by the time the tournaments end.

### 59-Game Streak by Mass

Here are some of the more in-

TERESTING RECORDS THE U.P. SPORTS WRITERS HAVE GATHERED DURING THE LAST TWO YEARS:

1. Longest win streak. Mass' 59-game string in 1947-48-49 (including state Class D championships in 1947 and 1948). Steak ended Jan. 28, 1949, when Mass was defeated by Ironwood St. Ambrose, 58-56.

2. Most points scored by team in regular season. Mass' 1,297 points for 1951-52.

3. Most points scored by team in regular season and tournament. Mass' 1,627 points for 1951-52.

4. Best team average for regular season. Mass' 72.47 for 17 games in 1952-53.

5. Best team average for regular season and tournaments. Mass' 72.04 for 23 games in 1951-52.

6. Highest team score in one game. Ironwood St. Ambrose's 107 points against Bergland Jan. 18, 1952. (Topped by Perkins' 110 against Engadine Dec. 11, 1953).

7. Highest two-team total in one game. 172 points scored at Mass Feb. 8, 1952 (Mass 100, Trout Creek 72). (Topped by Mass 99, Trout Creek 79 score at Mass Feb. 2, 1954).

8. Best defensive record. Negaunee held 20 opponents to an average of 10.4 points a game while winning all season games and Upper Peninsula championship in 1952.

9. Most points by player in one game. Norbert Puro of Ironwood St. Ambrose, 60 against Mass Feb. 22, 1952.

10. Highest individual total in regular season. Norbert Puro of Ironwood St. Ambrose, 556 in 19 games during 1951-52 season.

11. Highest individual total for regular season and tournament games. Pete Kutches, Escanaba, 556 in 19 games during 1951-52 season.

# U. P. District Cage Meets Open Tonight

The Upper Peninsula high school basketball tournament trail begins tonight on varied fronts and will reach a climax at two gymnasiums on March 13.

Tonight is the opener for district tournaments in which four champions will be crowned in each class, E, D, C and B. The four district survivors will advance to regional sites with Class C and D teams at Negaunee and B and E winners at Houghton Tech. U. P. championship games will be held on March 13.

### Betts Beaten In Chicago Tourney

CHICAGO (Special)—Tommy Betts, Marquette, the Upper Peninsula's lone representative in the Tournament of Champions, was eliminated in a special 118-pound bout on last night's program when he lost a close decision to Irving Tucker of Memphis, Tenn.

Betts won the U. P. Golden Gloves crown in Escanaba and repeated in the Milwaukee Journal tournament to move into the big show here. He drew a bye and earned a decision Monday night.

Only one Milwaukee champion remains in the running. He's Norman Johnson, highly-regarded lightweight, who will be in action tonight. The championship bouts are scheduled for Thursday, March 11.

Among the district tournaments which open tonight are two set for the big Rock gymnasium where 12 teams will be competing in Class D and E.

Tonight's schedule at Rock will send Perkins against Daggett in a Class E contest at 6. Cooks against Powers at 7:30 and Rock against Hermansville at 9 in Class D tilts.

# District Tournaments vs. Open; Team Suffers 116-13 Loss

By JOE FALLS  
Associated Press Sports Writer

Stunned Winnetka High School was still quivering today, attempting to recover from the worst beating in the 29-year history of the State High School Basketball Tournament.

The little Class D school, playing in the West Branch district eliminations, was crushed by the fantastic score of 116 to 13 Tuesday night as the three-week tournament got off to a smashing start.

Whittemore administered the beating — and with subs playing

most of the second half, too. Led by Larry (Little Bevo) Bowen, the winners rushed into a 45-2 lead at halftime and added 71 points in the second half.

No team in tournament history had ever been subjected to such a trouncing. Last year, Genesee took an 89-10 lacing from Mt. Morris St. Mary—but it was nothing like this.

## Scores 52 Points

Bowen, hitting with an assortment of shots, poured in 52 points on 23 field goals and six fouls. Roger Hall netted 27 and Francis Tagel 26.

Thus, this trio accounted for 110 of Whittemore's 116 points.

Winnetka's "high scorer" was Virgil Fischer, who netted seven points—more than half of his team's tiny total.

Playing basketball for the first time, Winnetka entered the tournament with an 0-6 record. In two of the losses, the opposing team scored more than 100 points. This unexpected development even

overshadowed vibrant victories turned in by Saginaw St. Mary, defending Class C champion, Pellston, White Pigeon and Traverse City St. Francis.

All won in the fading seconds. Saginaw St. Mary broke out of a 46-4 tie in the final minute to down Michigan Lutheran Seminary, 58-53. Guard Lawrence Moriarty with 24 points, was St. Mary's leading scorer.

## Sudden Death Win

Pellston nudged Cheboygan Catholic Central 39-37 in a double overtime thriller which was decided by Myrtil Davenport's "sudden death" jump shot from 10 feet out. The score was tied 32-32 at the end of regulation time and 37-37 after the first overtime period.

Then the teams went into "sudden death" play—the first field goal winning. Cheboygan Catholic Central had the first crack but missed.

Davenport didn't. Meanwhile, Glenn Yoder dribbled the length of the floor and scored

the winning basket with two seconds left to give White Pigeon a 57-55 victory over Mendon.

Traverse City St. Francis nosed out Leelanau, 42-40, when Tommy Saunders scored two field goals in the final 30 seconds to snap a 38-38 tie. St. Francis had trailed 29-25 at halftime.

## St. Joseph Weakened

District action really gets rolling Wednesday night, with games scheduled in every section of the state.

The defending Class B champion, St. Joseph, goes against its rival Niles, at Eau Claire High. The Bears, like Saginaw St. Mary in Class C, have been crippled by graduation losses and are not expected to make a serious bid to retain the state title.

Other top games tonight include:

Coopersville vs Muskegon Catholic, Three Oaks vs New Troy, Holland Christian vs Zeeland, Ludington vs Manistee and East Jackson vs Jackson St. Mary.

## Cubs Are High On Two Negroes

By BEN OLAN  
Associated Press Sports Writer

The Chicago Cubs' second base combinations cost Phil Cavarretta many sleepless nights last season. Today, the 37-year-old manager thinks he has the situation well in hand, because of two Negro rookies—Ernie Banks and Gene Baker.

"Failure to make the double play and those many errors we had is what ruined us last year," Cavarretta said.

He is particularly impressed with the showing of Banks, the 22-year-old shortstop purchased from the Kansas City Monarchs last September. Banks batted .314 in 10 National League games.

"Banks has sure hands, a fine arm and looks like a hitter," Cavarretta beamed.

The 28-year-old Baker hit .248 for Los Angeles in 1953, including 20 home runs and 99 runs batted in.

He played shortstop for the Pacific Coast league club, but Cavarretta is confident he can easily make the switch to second base.

"If he can hit as well as Eddie Miksis, he stands an excellent chance of running him off the bag," Cavarretta explained. Miksis batted .251 in '53.

Miksis, dividing his time between second and shortstop, made 35 miscues last season and Roy Smalley, at shortstop, made 25. The club made 141 double plays. Only Pittsburgh had fewer.

## Fields Nearly Completed For College Basketball Tournaments

By ED CORRIGAN

NEW YORK (AP)—The NCAA post season tournament filled one more of its berths today with Texas Tech, the champion of the Border Conference — but the National Invitation Tournament still was scrambling for the last club to fill its 12-team field.

Texas Tech wrapped up the Border crown Tuesday night by taking care of West Texas 84-71. It was the final game of the season for both schools and it gave Tech an 11-1 league record against 9-3 for West Texas.

The Southwest Conference race ended in a deadlock last night with Rice and Texas holding 9-4 records.

## Three-Game Playoff

The Longhorns closed out operations by whipping Texas Christian 68-59, while Rice downed Southern Methodist 90-64. The two clubs begin a three-game playoff Friday night.

## DeMarco Is Confident He'll Defeat Carter

GREENWOOD LAKE, N.Y. (AP)—Paddy DeMarco, a confident challenger, hopes that lightweight champion Jimmy Carter will try to add to his knockout record in their Friday night fight.

Carter has won his last three title contests by knockouts and is a 3-1 favorite over DeMarco in their Madison Square Garden 15-rounder.

"He's slow moving and he aims to knock you out with his right," said the 26-year-old Brooklyn brawler. "I like those guys who are out to get you with rights. I can get in there and bang to the body. He'll get hit by right hands, straight jabs, rights to the body, left hooks—every kind of a punch. I can beat him. I've seen him."

LAKELAND, Fla. (AP)—The Detroit Tiger management is taking a good look at Bill Oster, a 19-year-old lefthanded pitcher from New York University and Hofstra College.

Oster, when asked how much he wants to sign a contract, candidly answers, "I figure \$35,000."

Shortstop Harvey Kuenn, after 10 minutes of trying to hit the young lefty's pitching, tossed his bat aside saying Oster has "everything and I've had enough."

CLEARWATER, Fla. (AP)—The Philadelphia Phillies are reported ready to trade first baseman Earl Torgeson to either the New York Giants—for outfielder Don Mueller and reserve infielder Bob Hofman—or the Pittsburgh Pirates—for outfielder Hal Rice and infielder Dick Groat.

VERO BEACH, Fla. (AP)—The comeback of Joe Black, Brooklyn's ace relief pitcher, two seasons ago, still is up in the air.

The slender righthander gave up five hits and two walks in the two innings he worked in Tuesday's intra-squad game. He won only six games last season.

TUCSON, Ariz. (AP)—Pitcher Bob Lemon agreed to salary terms with the Cleveland Indians Tuesday night.

Lemon, at a reported salary of \$42,000, remains the highest paid pitcher in the American League. The 21-game winner of last season is believed to have taken a \$2,000 pay cut through terms of his contract were not announced.

## Training Camp Briefs

SARSOTA, Fla. (AP)—With slugger Ted Williams sidelined with a fractured left collarbone, the Boston Red Sox today reported to be negotiating for Washington's Mickey Vernon, the American League's batting champion.

General manager Joe Cronin refused to comment but in the Senators' Orlando training camp their vice-president, Calvin Griffith, said, "we have discussed the possibility of a trade involving Vernon."

First baseman Vernon is regarded as a holdout by the Senators.

TAMPA, Fla. (AP)—Manager Paul Richards has prepared a lineup of mostly young prospects for the Chicago White Sox opening exhibition game against Cincinnati Saturday.

He plans to use three pitchers, Dick Duffy, Bill Fisher and Gus Keriazakos. The rest of the lineup will be: Joe Kirrene, 3b; Ed White, lf; Tom Wright, rf; Bill Wilson, cf; Carl Sawatskie; Johnny Lipon, 2b; Freddie Marsh or Jim Baumer, ss.

MESA, Ariz. (AP)—Laughing off reports that Chicago Cub executives are trying to get waivers on him, Frank Baumholtz declares he's the man to beat for the club's centerfield job.

"I only worry about that opening day lineup," said Baumholtz, who batted .306 last season, second high for the Cubs.

There are reports that waivers on Baumholtz were blocked by a Brooklyn Dodgers claim.

BRADENTON, Fla. (AP)—Catcher Del Crandall rapped a grand slam homer off Bob Buhl Tuesday to pace the varsity to a 6-5 victory over the yannigans in an intra-squad game.

"People don't realize what awful pains arthritis can cause until they actually suffer themselves."

You people who have painful arthritis will know how I felt for several years; two years of which I was right down with it. I had arthritis terribly in my neck, feet and knees, and my mother who is 85 years old is taking it with equally good success. Besides helping my arthritis, O-JIB-WA has proven to be an excellent tonic, as it has helped my nerves and I sleep much better. ## Smaller Role Seen For TVA

By CONGRESSIONAL QUARTERLY  
WASHINGTON—(CQ)—After 20 years and more than \$2 billion, the Tennessee Valley Authority—cited by President Eisenhower as an example of "creeping socialism"—may be slated for a smaller role on both the regional and national scene.

TVA directly affects the seven states it touches (Tennessee, Alabama, Kentucky, Georgia, Virginia, North Carolina and Mississippi), and also supplies power to the Atomic Energy Commission, munitions materials for defense, and fertilizers for farm-education programs in 36 states.

TVA activities include the generation, transmission and sale of power, resource development, and navigation, flood control, fertilizer and munitions programs.

TVA backers point out that:

Since 1933, when TVA was created by Congress, the percentage of Valley farms electrified has increased from three to 90 per cent.

TVA supplies power to an 80,000 square mile area, with some 150 municipal and cooperative agencies distributing this power to 1.3 million consumers. This compares with 300,000 power customers in 1933.

The TVA flood control program is estimated to have averted \$51.3 million worth of flood damage, and recently completed dredging of a 630-mile navigation channel with a minimum depth of 11 feet has proved a boon to river traffic.

Other achievements cited by TVA supporters:

TVA fertilizer and resource development programs have helped farming and industry throughout the nation.

In World War II, TVA supplied 6 per cent of the pure elemental phosphorous used by the armed forces for munitions.

According to TVA "in no other region of the country is as great a proportion of total power supply being devoted to national defense"—primarily to atomic plants.

Those who would cut down on

TVA point to its size. Starting with 45 employees in 1933, the Authority had 22,406 workers on its payroll at the end of fiscal 1953. In the 20-year period, \$2,660,427,000 was available to TVA through appropriations, and revenues from such TVA operations as the sale of power. From that money, TVA made gross expenditures of \$2,353,853,000, and had total assets of \$1,149,539,000. Another \$210 million was being invested in construction.

At the start of its 21st year, TVA's 20th dam and seventh steam plant were under construction.

Many TVA supporters have expressed concern that Administration emphasis on a bigger role for states, localities and private business points to curtailment of TVA.

Sen. James O. Eastland (D-Miss.) said Feb. 5 he was worried about "a lot of propaganda put out to sell TVA assets." He charged the propaganda was coming from "prominent Republicans."

Starvation Diet?

But Sen. William F. Knowland (R-Calif.) said Feb. 5 he is sure it isn't Administration policy to "liquidate or sell" TVA.

TVA supporters say several events point to what Eastland called a "starvation diet" for TVA.

Among the signs:

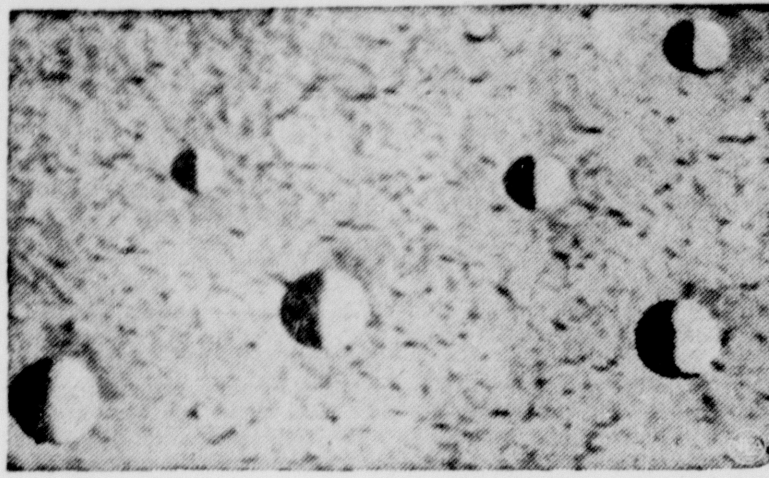

Sharp cuts were made in TVA resource development appropriations for fiscal 1954 (the year ending this June 30), and could affect TVA effectiveness as a regional agency.

President Eisenhower made comparatively low new money requests for TVA in fiscal 1955—\$141.8 million. His fiscal 1954 request was \$190.8 million. Congress trimmed it to \$188,546,000.

The President's fiscal 1955 TVA budget included no money for TVA power commitments to the AEC for 50¢ 000 or 600,000 kilowatts. Sen. Estes Kefauver (D-Tenn.) said this might mean the Administration intends "to put a lid on the Valley region for future defense work."

### CURFEW TIME

The word "curfew" is derived from the French couvre-feu, meaning "to cover fire." Ringing of the curfew originated in England under William the Conqueror, who required all houses to be shut and lights and fires to be put out at the ringing of a bell each night.

**GUESS WHAT?** — If you think they're a boy's marbles on the carpeted floor or a multiple eclipse of the sun, you have another guess coming. It is one of the first pictures ever made of what University of Maryland scientists believe is the common cold virus. The irritating headache and sneeze-producing viruses were caught by an electron microscope and camera, and magnified some 200,000 times.

## Learn Of Past From Lizards

LOS ANGELES (P)—Fossils of lizards and frogs tell more of prehistoric climate than the bones of mastodons and saber tooth tigers, says a zoologist. Large animals could easily walk away from an advancing glacier, but it might take a lifetime for a small lizard to crawl out of a large valley, Bayard Brattstrom, zoologist at the University of California at Los Angeles, reasoned. Thus bones of small animals unable to get away tell more about the climate of a particular area than those of more mobile beasts.

Studying small fossils from the La Brea tar pits, the zoologist determined that 50,000 years ago the Los Angeles basin was a grassy woodland covered with large oak and walnut trees, with probably

less rain than it has now. Ponds and streams existed, however, since bones of turtles, frogs and toads were found in the tar.

Fossil lizards and snakes in Nevada caves indicate the Las Vegas area 10,000 years ago was a desert, but not as dry as now. Brattstrom said one million years ago Florida had a subtropical climate—reptiles and amphibians found there survived the inundating ice in more northern areas.

### IMPALES PREY

Commonly known as the butcherbird, the North American shrike gets its nickname from the manner in which it kills prey. It captures small birds, mice, or grasshoppers in its beak, then forces them onto thorns, fence bars, or broken twigs, in the manner a butcher hangs meat on hooks.
